

Metadichol Testimonials Gathered by Cosmic Connections (International) Limited

NOTE: The MagicDichol® Family of Products –NANO SOMA® Liquid, METASOMER® Topical Gel and METASOMER® Telomerase Natural Skin Cream – all contain the widely patented Metadichol®, a nanoemulsion of policosanol. The following are user testimonials. Neither Cosmic Connections (International) Limited nor any other individuals or incorporated entities who are in any way involved with selling or marketing Metadichol in any form make any claims about Metadichol based on these testimonials, beyond the claims made as part of the official approval or the regulations under which those products are marketed in any given country. None of us are medical doctors. This product is not intended to diagnose, treat, cure or prevent any disease.

My name is Howard Wolin. I am currently 79 years of age. I started as a medical doctor. The training I had was as an intern and resident. The resident was in psychiatry in Chicago at what was then an incredible psychoanalytic training center and the guy who ran it was trained by Freud. In those days that was psychoanalytic psychotherapy - we actually talked to people and

helped them deal with their stuff and then I went into practice at age 30 and started working with people in and out of the hospital – adolescents, geriatric patients with all sorts of psychiatric illnesses psychosis, depressions, and then at the age of 36 I started, while I was practicing, a psychoanalytic training program concomitant with my practice and became a psychoanalyst at the age of 40 or 41. That involved seeing patients on the couch for about five days/week. That went on until I was about 50 but in my mid-40s – and in my 30s – I started a healing path, which started on the outside and got deeper and deeper, with seminars and experience-based learning from colleagues who were very much smarter than me.

At the age of 50, I started a holistic practice. I shifted out of the psychoanalytic work into holistic practice, just functional medicine, functional bloodwork, kinesiology for testing for supplements. At that point, also, I started working spiritually; first with one colleague and then in the last 20-25 years with a native American tribe who have 3 or 4 reservations here in the States and a presence in Tibet, and I did the holistic work until 2012, retired, and then I'm still doing the spiritual work and working with friends and people close to me to use the kinesiology to help heal physical stuff with supplementation.

When I test anything and likewise when I test a supplement for a patient, or when I test whether somebody should marry someone or whether they should get a job or whether they should hire someone, the baseline test is 100%. Right? 10, 20, 30, 40, 50, 60, 70, 80, 90, 100%. Or if I test a supplement, if anything tests lower than 70%, I don't want to use it. If I test a food, a coffee, anything else, I hold it against my body in a certain way that we test, and if it doesn't test well, we don't do it.

So, when I tested Metadichol in the ways that I can test it, it tested – and I have confirmed this with colleagues who were at it as long as I – it tested a trillion percent positive, which is pretty phenomenal. At times it's tested higher in different venues. I do not doubt the quality and the frequency of this is so, so high that, whatever it's doing, whether it's Raghu's explanation about the Godfather, or it's mine or anyone else's, it has an incredibly high frequency.

Here's what I'm finding – using years of kinesiology experience and Metadichol as a filter or door opener, I'm finding that it unlocks/makes visible to the body's consciousness deeply hidden chemicals – pesticides, i.e. Kepone, and heavy metals hidden in and compromising the functioning of mitochondrial DNA – of glands, organs, neuronal tissue – i.e. thyroid, alveoli, bronchioles, spleen, renal tubules, liver, small intestine – it opens the door for the body-mind to recognize the toxins and once recognized – i.e. not hidden, the body

dumps/detoxes it, thus allowing mitochondria to function more effectively with full energetic expression.

But I have seen over 30 or 40 years and have done what I can to get rid of a whole host of polioviruses that were grown in chimpanzees. What I'm about to say to you is, since I've been using Metadichol, they have in the last month to 2 months, have gone from the RNA protein or the DNA protein or mutated – those are the 3 forms – into now dead viruses. And it's not just that, it's old, mutated stuff – Hemolytic B, it is smallpox, it is varicella first starting to outlive, then mutated, then dead, so it does do that.

It's not the Godfather that tells the cells to shape up their asses; the cells have an enormous consciousness. I think what it does is it shines the light on all the shit. And I'm finding it's not just viral or bacterial, it's every single toxin, including radioactive Strontium 90, which I got a huge dose of as a kid in New York and it's including all sorts of heavy metals and it's including all sorts of pesticides. I think what it does is it shines the light, opens the door to the cell seeing them, and then the cell knows already because they're all conscious, to get rid of it and sweep it out. That's my take. I could be wrong but that's my take on it. It makes the crap visible.

Let me give you one example. I have a massive menu, but the menu has histological points, Gamma 2 which are called neurological points, and all sorts of other body points. Over many years but especially over the last few months there's been a huge amount of stuff clearing out of my liver as other places clear, and I'm working two days ago and suddenly the word sinusoid comes up. What it is, it's not even a capillary. It's tinier than a capillary and it's in the liver, it's in the adrenals, it's in the bone marrow and all sorts of sinusoids start showing up. But, importantly, all sorts of toxic crap of the same sort that I've found shows up there, and the way I do it is, when it's recognized by me, through the menu, I write it down on a paper, I hold the paper with the writing facing out, I tap the body and the body is going to start dumping it like crazy. How do I know that? I know it but I have an incredible physical therapist who, when I'm working, and she works she'll see all sorts of either toxins or infections pouring out.

But here's the other interesting piece. The body hides things so that it can seal around and protect them until it's ready to let them go. And if it lets it go in one place, it lets it go in other places. So, Strontium 90 now is coming out from all over.

But the fascinating thing about Metadichol – Raghu speaks about five sprays and I don't doubt the science of his genius, but I have variously tested anywhere from five sprays once/day when I started; now I'm at a point where I can be testing at times 50 sprays five times/day and now 75 once/day; yesterday and the day before, 65 twice/day, and I trust my testing and something is

going on where the body is saying that's what I need to get rid of whatever this shit is. So, I'm putting this out there, not to dispute him but to suggest to you is that it really could be a lot different, depending on the day, the moment, and what's being dealt with. Now, this could just be my vehicle that needs, whatever it needs to do what it does.

And I said this to you when I met you; I've been at this with supplements, and this is the best thing that will fix anything in the world. All the supplements I've taken are target- specific, and there's a company called SpectraCell that I use for the consult for over 30 years, the least amount of supplements with the most effect; you can't easily, palpably see what a supplement does. You can't say, "Oh, my God, it's like the movie "Paul" – he touches her in the eye and her eye heals instantly."

And most people, when they have this; I can see it in a way that other people really can't see it. I can see what it's doing, I can see what's happened to my energy, my runs are better, I'm calmer in many ways. I mean there's a lot of things that it does. I can see what it does inside in terms of helping stuff, clearing stuff out. Mostly it's my intent but this is the helper.

Beyond amazing – after years of bullshit, this is something beyond real.

Howard, March 2020

My twin brother and I found out about NANO SOMA a few weeks ago. We read about it and saw a testimonial where a lady with macular degeneration used NANO SOMA as eye drops and saw positive change in a short time. This was intriguing to us because we are always researching natural remedies to share with friends.

We both are very nearsighted and wear contacts. A few years ago, we both suddenly noticed that we had eye floaters, which look like dark thread fragments floating in front of one's vision. They were bothersome, but nothing cured them. They would just degrade or fall out of vision after a few weeks or months. About two years ago, we noticed that they sometimes seem to have a gel that they pull across, which momentarily causes a moving blurry spot. Extremely irritating. Even though we were taking eye vitamins and supplements, these never seemed to go away completely. I thought that if using NANO SOMA as eye drops had helped a lady with an eye issue, we might see good results.

We each bought a bottle and poured some of it in an empty eye drop bottle. We both used one drop in each eye in the morning and again that evening. I kid you not – after two days, we both noticed that our vision had cleared up by about 30%. In fact, I didn't notice that mine had cleared up until I started on the third morning and it dawned on me that my vision was clearer. Granted, we both still have the gel-like blurry spots, but after two weeks now, it seems much better. Amazing stuff. We also take five sprays in the mouth a day. I'm sure it must be good, since it seems to work for our eye floaters.

Ronald, November 2023

Nine years ago this month, I was diagnosed with Pulmonary Fibrosis (PF). Fortunately, it's spread very little over the years and hadn't caused me much trouble. However, in March of this year, I took a quick trip to Colorado and the high elevation made me suffer the same symptoms people with PF or chronic obstructive pulmonary disease suffer.

My local pulmonologist ordered a Pulmonary Lung Function Test and a CT scan of my lungs. Her diagnosis: take two chemotherapy pills a day to slow down the spread of the damage. I was then introduced to NANO SOMA and began taking five sprays four times a day. I also sought a second opinion. This new pulmonologist ordered a new Pulmonary Function Test (PFT) and scan and had me come back in 30 days. When I returned, he told me the disease had definitely spread from nine years ago, but it has NOT spread since 2022. The ONLY difference in my lifestyle was NANO SOMA. He's asked me to come back in 90 days for another PFT and CT scan... and I continue to take NANO SOMA! I look forward to even greater results!

Jim Christoferson, September 2023

Last night I cut my finger with a sharp knife. It was pretty severe. I generously sprayed it with NANO SOMA, and later applied METASOMER Topical Gel. I took a picture of the cut this morning. Can you even see the wound?

Scotty Saks, September 2023

The first photo is from July 28th, when I noticed I had a hard, visible bump inside of my neck. I began taking five sprays of NANO SOMA three or four times a day, and I applied METASOMER Topical Gel to it about two times a day. The second photo is from September 14th, about seven weeks later. I had confidence these products would work and it's always exciting to see quick, tangible results.

Erin, September 2023

I have been using NANO SOMA since the early winter months of 2021, when I learned from my life insurance company that I was going into renal failure. They tested me twice and decided to decline my case due to my being high-risk... for death? I may not be able to prove it, but I know this situation was caused by my having received multiple doses of Remdesivir in December 2020, when I was hospitalized with COVID-19 pneumonia for 10 days. Daily Remdesivir was a norm then as part of the COVID-19 daily infusion hospital protocol, and I allowed it because I believed in western medicine at that time.

I was suffering from rheumatoid arthritis and had been on Methotrexate since being diagnosed in 2013. I also had Embrel injections for two years. I am a registered nurse of over twenty years, and I made the executive decision to stop taking all prescription medications and OTC (over the counter) medications, including vitamins. This was my attempt to slow down the progression of the renal failure, as all rheumatoid arthritis medications are nephrotoxic as a side effect.

This is when I was introduced to NANO SOMA...

In addition, I went for EES (Energy Enhancement System) sessions during the entire month of June 2022. EES is a Med-bed technology invented by Dr. Sandra Rose Michael.

I just know NANO SOMA had an incredible influence on my renal function remaining intact from November 2021 to June 2022, when I was experiencing EES. Together with NANO SOMA and EES, I am still alive and well, and I am NOT on dialysis. I have received TWO flying-color checkups, six months apart at the nephrologist's office. With one more clearance, he said I would no longer be needing his services.

Thank you, NANO SOMA, for saving one life at a time and for maintaining quality of life!

Update:

I use just about one bottle of NANO SOMA a week. I spray it under my tongue and all over my face, neck, and upper chest area. I believe this is keeping my skin taut and younger-looking, because I haven't aged since starting to use NANO SOMA.

Julie, May 2023

In October 2020, I chipped a tooth and went to see my dentist. The X-rays revealed that I had an impacted wisdom tooth decaying under the gum. I hadn't experienced any discomfort, so this was quite the surprise. I was referred to a dental surgeon who also confirmed this diagnosis. At the time, my husband was terminally ill and I was his caregiver, so having surgery was not an option. When my husband passed away in December 2020, COVID-19 was already rearing its ugly head; vaccines were being pushed and mandates were being put in place.

I was and still am a subscriber to UNN Network News and in early 2021, I heard an interview with Dr. Presser. I have always been skeptical about stuff like this and wary of online shopping, but I was nervous about COVID-19 and knew that vaccination was not the way to go. I read everything I could about NANO SOMA and ordered three bottles.

Now, almost two years later, I continue to use NANO SOMA twice a day and can say that I've not had so much as a cold. I have not had surgery and have had absolutely no issues with my wisdom tooth, though I have not been back to the dentist. I'm very nervous about any kind of medical treatment after what I've seen over the last three years.

Sandra, May 2023

This week I found a baby opossum who must have fallen out of her mother's pouch during the night. She was barely breathing and was presumably suffering from the cold and shock. Many who saw me that morning said that they had walked past her earlier in the day and thought she was dead!

I immediately sprayed some NANO SOMA on her tail and ears, and I was shocked by how quickly she revived. She began to breathe more fully, move around, and crawl (shakily) within minutes. I continued to give her NANO SOMA and warmth for a few hours, and she fully recovered her strength. It really felt like a miracle, and I doubt she would have made it without NANO SOMA.

I highly recommend carrying your NANO SOMA with you; you never know when you're going to need it, whether for yourself or for others. This is especially true for those of us in the middle of spring!

Erin, April 2023

The METASOMER Topical Gel is great for connective tissues!

I have had hip impingement/hip dysplasia issues for seven years. The doctor suggested that I do a total hip replacement. I decided to start using nutritional healing and physical therapy instead...and I was able to return to Colorado mountain hiking, climbing stairs, and snow skiing!

Now, fast forward another five years of a very active lifestyle, and in the process of moving to the mountains, I have done MORE tearing/fraying of my hip's labral tissue to the point that every day I would have a sharp pain in my hip from the tissue impingement. The issue was to the point that I fell and really tore up my knee. Once more, it was a call to Life Enthusiast for suggestions regarding what might help the healing process.

Martin suggested giving the METASOMER Topical Gel a try. So, I applied the gel twice a day to both my hip and my knee. I will tell you that my knee issue is almost resolved!! My hip continues to have a sharp pain, but not every day. I will continue to take this product for sure.

Prairie W., March 2023

I have had two recent successes with the METASOMER Topical Gel. First, after “expertly” touching a pan out of the 375F/190C oven, I applied the METASOMER Topical Gel immediately onto the burn. It stung for a moment, and then the pain was gone. No sign of any burn or even sensitivity in the area for the rest of the evening or the following day. Having had experience with these burns, I know that’s a consequence of applying the gel.

Secondly, my left ear piercing has always been irritated by anything other than gold or silver. I began covering the earring’s post, and my earlobe, with the METASOMER Topical Gel and for the first time in my life I can wear my cheap earrings without irritation!

Erin, March 2023

I drank coffee yesterday and had some dark chocolate homemade candy. My heart felt like it was going to jump out of my chest. I took five extra sprays of NANO SOMA and within minutes my heartbeat regulated. That was a good test right there of how NANO SOMA brings the body back into balance.

Anonymous, February 2023

My sleep has been better since my use of NANO SOMA. I feel my energy level has been better, too!

My wife recently had knee surgery and has been using the METASOMER Topical Gel and NANO SOMA Oral Spray and it has helped clear up bruising and relieve the pain somewhat. We have been using it two to three times daily as we are in our early 60s.

God Bless from Ohio!

Reginald, February 2023

Dr. Raghavan,

My name is Mark and I live in southeast Wisconsin, USA. I wanted to send you a quick email outlining my experience with NANO SOMA and how it has helped me heal my body.

I am about to turn 55 years old and, due to COVID-19 workplace mandates, I was vaccinated with Pfizer-BioNTech Dose 1 (April 2021) and Dose 2 (May 2021) to help “safeguard” my workplace. It didn’t take very long for me to start feeling the effects of those vaccines. I went from being a healthy, five-time Ironman Triathlete with multiple marathon finishes to not being able to complete a short bicycle ride without gasping for air and feeling unusual fatigue.

I knew nothing about the side-effects of the COVID19 vaccines. I had put blind trust in the vaccines and was now worried about what I had done to my body. My initial thought was to just “health” the vaccines out of my body with diet and exercise. I found very little improvement with this approach – the same approach that had sent me across many finish lines.

Jump to October 2022 and the introduction of NANO SOMA into my daily routine. Within a few days of taking NANO SOMA, I noticed that I felt more energetic, my skin looked better and my eyes were brighter. Encouraged, I continued to use NANO SOMA and found that my energy levels were on the rise. My fitness and exercise program was starting to show improvement and I felt like I had the strength to complete bigger workouts. More importantly, my lungs felt great!

I have been using NANO SOMA daily and I have started to notice more benefits. My nails are growing fast and I find myself having to trim them about every seven or eight days. My hair! My hair is growing fast, too. I find myself needing a haircut sooner. I am getting better sleep as well. I almost feel like everything is getting stronger and more efficient. Now, I wouldn’t say I’m ready to tackle another Ironman (just yet), but I know my body is working like it should be working.

Please feel free to reach out to me and I thank you for helping me get my body back from the vaccines!!!!

Mark, February 2023

I used to have a lot of floaters in my eyes. After three or four months of using NANO SOMA, these went away. I only sprayed it in my eyes about four times; the rest of the time I ingested NANO SOMA orally, taking five sprays daily.

Karen, January 2023

From a 70-year-old customer:

I am having a quiet and remarkable revolution in my body. I have been quite healthy throughout my life with only sinus issues when I was pregnant with my first child. In 2012, while using superglue without gloves, it suddenly spilled on my right hand, wrist, up my elbow, around my neck, and down to my left hand. My right hand was particularly black. It was impossible to remove, though I discovered Aloe Vera, which helped to a degree. To compound it, I fell while changing a bulb from the dining table. This almost yanked my left leg from my hip, leaving me with very poor balance and a feeling of breathlessness. I used to play badminton quite frequently but found myself toppling over.

I started taking NANO SOMA regularly from October 2021, and I can say today with confidence that my physical life has moved positively by leaps and bounds. I can truly say that this improvement from a chronic state to health has lifted my optimistic spirit to greater heights, as I can see and feel a relief of my symptoms – slowly, but surely.

Thanks, Raghu, for this incredible discovery. ‘Thanks’ is too tepid a word to describe how I feel.

Anon, December 2022

Dear Doctor Raghavan,

I am 75 years old and had pterygiums (growth of the conjunctiva or mucous membrane that covers the white part of the eye over the cornea. It is a benign or noncancerous growth often shaped like a wedge) in both eyes that bothered me terribly. They were not ready for surgery, but

they bothered me tremendously as my vision was impaired and the itching was continuous. The left eye had the pterygium covering the cornea, as is evident in the MGH/HARVARD medical records in 2019 (I will mail them soon). The pterygium in the right eye was about to reach the cornea; it was yellow and not translucent. In 2020 and 2021, due to COVID-19, I did not have my eye exams.

The surgery is complicated as is the recuperation, but I was ready to have it after my eye exam this year in Florida.

In mid-May of this year, however, I began to apply the NANO SOMA spray to both of my eyes. Within a month and a half, the pterygiums receded in both eyes; I could see clearly and there was no longer any discomfort. I feel that I no longer require surgery. I feel fine and my vision is clear. I will send the detailed pictures of my eyes as well as the medical report in the first week of January.

Sincerely,
Jorge Gonzalez, December 2022

I started putting the METASOMER Topical Gel on a couple of bumps around my eyes which my dermatologist had been wanting me to treat with stuff that I found way too harsh. They've been there for a couple of years now. After a couple of days using the METASOMER Topical Gel, one of the spots is basically gone and the others seems to be on their way Ana S., December 2022

My sister-in-law's husband went nearly totally blind and was told there was no cure. I implored her to use NANO SOMA. He did. He got his sight back even better than before. I asked her for a testimonial for you. She said that in January her husband will have his clinical tests and she will compile everything, including photos, for you. They are so grateful and I told them you have a special place in my heart. Congratulations, Dr. Raghu.

Anon, December 2022

Dear Richard,

My spouse is receiving chemotherapy injections in his stomach for Leukemia. The injection sites are very painful; they burn and last for two weeks. The topical creams that the doctor recommended did not provide relief. I ordered the METASOMER Topical Gel to apply to the site, and it relieved the burning and healed the area within a week!

Below you can see the site before and after using the METASOMER Topical Gel.

He has to get these shots for seven days in a row, recover for three weeks, and then begin the injections again.

In addition, we both take the NANO SOMA Nutritional Spray orally every day. I've been taking it for two years and he began after his diagnosis. While we limit our exposure to crowds, we have not had any colds or viruses since taking NANO SOMA. In my heart, I know that NANO SOMA is helping our immune systems stay strong.

Blessings to you and Raghu for your commitment to healing and wellness. You are mighty Healing Earth Angels!

Joy Pellegrino, December 2022

I'm a long-haul COVID patient. I lost my sense of taste and smell in August 2020. I ran across the name NANO SOMA on a website search in late 2021 and bought a three-pack of the NANO SOMA Spray. I tried the first bottle under my tongue, as directed. Nothing happened. I then took the second bottle, poured it in a nasal applicator and took one spray through each nostril twice daily. In three weeks, I got my sense of taste and smell back – just short of two years after it went away. A miracle.

Thank you,

Cindi Stacey, December 2022

Hi John,

Thanks for the call. I continue to enjoy good results using NANO SOMA. I must have been taking it for nearly a year now.

My blood pressure has stabilized. It's down from around 160 over 86 to 144 over 82.

My PSA (Prostate-Specific Antigen) count has dropped 12 points.

My nosebleeds have virtually ceased (I use the spray only in the mouth).

My mental acuity has improved (I am 80 next February, so I need all the help I can get!).

Other irritating aches and pains have also reduced.

-

Thanks for the contact, much appreciated.

Kind regards,

Alistair Welch, November 2022

Hi Richard,

More than ever before, I am compelled to simply continue to eat healthy foods to sustain my body's health and immunity and to let my "human body" do the work it does so miraculously... with NANO SOMA.

Actually, I find that I am naturally craving less food. It's like my body/life is becoming more in line with my body's ability for optimization. I know this sounds out there, but it's true. In addition, before, I was taking more than five squirts of NANO SOMA a day... thinking more was better!

Well, I can tell you that taking more NANO SOMA is not necessarily better (unless you have a malady). Taking the suggested five squirts of NANO SOMA a day for maintenance has my body operating optimally. I feel calm and balanced.

Much Respect,

Stacey Gaiga, November 2022

Brilliant stuff. The first time I bought a bottle of this, I used it for about a week, and then my kids came home with a cold right before a weekend away during COVID. Hotels aren't keen on snotty kids of late so I probably went through a whole bottle spraying it down everyone's throat six times a day (we're a family of five). But, I have to say, when it came time to wake up, pack, and get on the road, not a single one of us was sick any longer after 24 hours of use.

I've used it on bug bites, sunburns, and skin irritations, but mostly to help modulate my immune system (I have Hashimoto's, which is an autoimmune disease that attacks my thyroid). I use it in conjunction with a very clean diet and a regular detox, and lately, it has been one of the main things that has kept me healthy after moving into a house with mold. I spray it up my nose for that. Not fun, but super effective. I can't recommend it enough.

I would say that you have to be consistent, as the results get better over time – kind of like with adaptogens. But I don't have the kind of joint pain or frequency of illness that I had post contracting COVID since using NANO SOMA regularly. Well worth it.

Anonymous, October 2022

Exquisite product. It's rare that you find something that transcends your experience of medicine. NANO SOMA is way ahead of its time. As a naturopathic physician, I suggest it to my patients and call it an intelligent molecule. It addresses most of your acute and chronic physical, mental, emotional, and microbial disturbances. I have never seen anything more exquisite than this product.

Anonymous, October 2022

We've used this daily for the last three months. We've dodged some serious and not so serious colds and flu bugs. I mix it with my two youngest daughters' beverages in the morning (just a few sprays a day). It's a miracle worker. For onset symptoms like a sore throat from allergies, or ear aches, we use as needed in addition to daily intake. My husband has recently started using it in his nose for snoring and it has already made a difference. Won't run out of this spray if I can help it. It's my cure-all go-to. We also use this for rashes, hives, eczema and more. It's our go-to on a daily basis with three kids. We keep a bottle in the car, the baby's room, both first-aid kits, and our medicine cabinet for a quick go-to.

Analiese Goforth, October 2022

NANO SOMA is everything and more, as claimed by the manufacturer. I am thoroughly convinced that NANO SOMA has changed my life in a most positive manner. Before I was introduced to this wondrous and miraculous substance, I was plagued with kidney stones, which necessitated multiple surgical procedures.

The recovery period was long and arduous.

An after-effect of the procedures was a loss of memory commonly known as anesthesia amnesia. Once I introduced NANO SOMA into my daily routine, the effects were completely alleviated and I returned to normal after a few weeks.

I was also pleasantly surprised to find that my dietary intake was drastically reduced, as the days progressed and hunger pangs disappeared. Eating less and still increasing my strength and ability to function at an above-level mode was in and of itself miraculous!

I will continue to maintain the use of this great product and enjoy a wonderful feeling of well-being.

Anonymous, September 2022

Feeling run down? This is my go-to immune defense in my home. With my family constantly on the go and working in healthcare, I'm exposed to many viruses. NANO SOMA keeps me going and helps me fight those colds, sinusitis, or just not feeling well. I take this stuff everywhere. We love this product. It's a staple in our home.

Renee, September 2022

Godsend! I have been using NANO SOMA for about six months now. And I have to say that I am blown away. I use it every day on the skin of my face after shaving, and people always wonder what I do with my skin. It is honestly nothing more than NANO SOMA and honey as my facewash.

I had a mark on my thumb that wouldn't go away. I used NANO SOMA, and in two weeks it was gone! My sister-in-law had a keloid she could never get rid of, and within a week and a half of using NANO SOMA it was gone as well. I spray it on any cut, burn, canker sore, or any skin-related issue and this has yet to fail me!

Thank you, NANO SOMA, for such an amazing product!

Ricardo, September 2022

We love NANO SOMA for the skin. Over the years of using this product, we have seen vast improvements in our eczema – from cracking and bleeding to just a small dry patch. It doesn't stop there. Recently, we used NANO SOMA in the healing of a spider bite instead of the prescribed steroid cream provided by our primary care physician. I have used this for the occasional rash, hormonal breakouts, mosquito bites, you name it. This stuff works, and I'm happy to be using a clean, safe product on myself and my kids. I highly recommend NANO SOMA.

Renee, September 2022

Product worked wonders! It helped with a severe eczema condition. Definitely recommend for all conditions.

Jon, September 2022

On Friday I had my second knee replaced. Sunday, today, the heat and pain were unbearable. Knowing this, I preordered the METASOMER Topical Gel. Tonight, I applied it all over the leg. Like a Reiki Master removing the trauma, the METASOMER Topical Gel did it in one minute. Wow. That's it. Charlie Zev, July 2022

Nearly 12 hours after taking the daily dose of five sprays of NANO SOMA, I can feel the ongoing action both physically and energetically. Physically: in the right ear and as a heightened sensory acuity generally. Energetically: as a silent awareness beyond (really, around) consciousness. The molecule itself signals its presence and beingness. When insights arrive in consciousness, the Total Being acknowledges this and signals congruent alignment... Really: no concepts...

Rick Mogul, July 2022

After chemotherapy, this product has helped me to bring my energy level back up. I am also using it on an infected gum area and it is keeping the infection down.

Cheryl Gibbons, July 2022

Hi!

Quick update—my daughter hasn't had a seizure for 4 months. Between NANO SOMA and a Keto diet, a few supplements, and her seizure meds, she is feeling more confident and working on building her healthy bakery business to expand to farmer's markets once she updates her website to her liking!

My update: My nerves around my knee replacements (TKR + reconstructive surgery to reattach my quad and patellar tendons continue to heal after 6 months of NANO SOMA and 4 years after surgery. Each month, I can feel more of my knee and am grateful. One more thing, I haven't had any migraines as I used to do so I think it's healing something there.

C.M. USA. March 2022

Dear Sean and Richard!

I LOVE, LOVE, LOVE THIS PRODUCT!!!!

I love the smell, I love the viscosity, I love the instant effects - both the smoothing of my skin and instant relief from a couple of skin ailments (stye in my eye from using old mascara - my bad)!

I love it - I want to purchase more!

Anyway, I just LOVE this METASOMER Telomerase Natural Skin Cream!! I wish I could take a bath in it, LOL!!

Love, Blessings, and Laughter,

Stacey, March 2022

Dear Dr. Presser,

I was so excited when I received my jar of skin cream yesterday.

I love everything about it - the jar, the way it dispenses the cream, the silky smoothness of how the cream goes on my skin and absorbs almost instantaneously, and the wonderfully light fragrance of the cream.

Blessings!!

Judy V., March 2022

Hi Richard!

I have had Relapsing-Remitting Multiple Sclerosis (MS) since late 2000 and have been managing it to varying degrees of success with diet and lifestyle, meditation, supplements and generally elevating consciousness and healing which I believe helps with chronic illnesses. Except for the first two years after diagnosis, I have never taken traditional medications such as immunosuppressants.

The last few years I have really been feeling the impact of MS, affecting my walking, it making it cumbersome and awkward, due to many factors - spasticity and balance largely...or so I thought. It was actually the damaged nerves in my left leg that I had forgotten about...but NANO SOMA obviously identified as needing the most healing and went to work! I had tried some things - Zeolite helped a little - naturally, any heavy metal detox helps with MS but nothing till NANO SOMA has had remotely the same impact. I realized that as the product team points out - it goes to work on what is most injured and acute first. With the function in that left leg mostly restored (it's only been since late October 2021!) the spasticity and balance are not nearly as problematic and it's probably healing that as well.

It has had such an impact I can actually jog and even sprint comfortably and my next goal is to be up and skiing next winter! I could not be more grateful or recommend this more wholeheartedly to anyone!

***** Personal results from treating my own Covid 19 with NANO SOMA:

I am 65, 5'11", and 305 lbs. Being unvaccinated and recently diagnosed with diabetes, I tested positive for COVID-19. My doc placed me in a high-risk category of course. However, he was completely surprised on a follow-up visit 4 weeks later.

Upon testing positive for COVID, I began oral AND nasal self-treatment with NANO SOMA, giving myself a dose of 5 sprays, 6-10 times per day by mouth, and several sprays per day intranasally.

My persistent and frequent cough throughout the day and night began to subside in about three days. My constant sharp headache did persist, however, with no relief from OTC headache treatments such as ibuprofen and my sinuses remained clogged for several more days. A feeling of deep exhaustion also persisted for several days, but I could feel a definite positive change occurring. My sense of smell and taste was still lacking.

Definite improvements on all fronts became noticeable by week three of this regimen, with my unusually sharp headache at last gone, and my energy returning to normal levels. The sense of smell/taste did take a few weeks longer to return. The striking event however was that my personal physician was quite surprised that his patient recovered quickly and without incident given the dangerous risk factors present.

It is now time for me to lose a substantial amount of weight, and I will continue to use NANO SOMA on a regular basis to continue my effort to improve my overall health.

NANO SOMA has passed a hugely important use test: my own.

Regards

JM, Rochester NY, USA Dec 2021

Hi Richard,

I have a nice report to share with you, from me. If you want to share it, please don't use my name but initials are fine, and I'm in California. It's self-explanatory, but if you have any questions or want me to rewrite anything just let me know.

You suggested that I ramp up the NANO SOMA from one dose/day to the schedule of 4x/day and so on for the whole purification program. Prior to that, I'd used it 1x/day, the only thing I ever noticed besides it feeling very friendly was that an issue on my skin which had been on my back for several years cleared up completely shortly after I began using it.

The first week of the 4x/day I didn't notice much other than a slight headache one day. The following week I stopped using it after a few days because I managed to irritate a nerve in a tooth in my mouth, which happens every few years randomly. When it gets irritated the pain can be extreme, and this time was actually worse than usual. None of my usual go-to remedies made much difference, other than sipping cool water which only calmed it down for a few minutes. I was reluctant to use NANO SOMA at that point because everything except water had caused greater pain. After nine hours I finally relented and swished some NANO SOMA in my mouth, fearfully.

Within about 30 seconds I noticed the pain softening and reducing and within maybe 10 minutes was barely there. I continued to use NANO SOMA whenever the pain started to increase again, but from the start, the periods between flareups kept lengthening and the pain was gradually less. Within about 1

1/2 days it was 95% gone, and I had actually been able to sleep during the night. After three days it was gone entirely. Typically, in the past,

(and this has repeated itself about every four years since 2004), the sensitivity might take as much as two weeks to recede, so this was genuinely miraculous by comparison.

I doubt that the flareup had anything to do with using more NANO SOMA the previous week because I'm sure the vulnerability came from some acidic grapefruit I ate too much of. I've never found it to be irritating in the slightest. Nerve pain is horrible, so just knowing that I now have a real answer to it should this happen again has lifted my spirits. Feeling at risk for pain even if it rarely happens is still like a shadow over your life.

I'm very grateful to you both, thank you!

With love,

H.F. - Dec 2021

Recovered from COVID injection adverse reaction in 30 minutes.

Thursday 12/2/2021, I received a Moderna booster at about noon. By dinner time, I was chilling, I was hot, having a bad headache, and ready to vomit. I lay down at about 7:55 PM. Just like what I have been doing for about a year, I took 5 sprays of NANO SOMA in the mouth, 1 spray in each eye, nose, & ear. I thought I was down for the night. I didn't quite fall asleep so that I felt the process of feeling lousy, more comfortable, back to kind of normal, then suddenly feeling good, ready to get up. And I did. I looked at the clock, it was 8:22 PM. In about 30 minutes, I experienced totally opposite feelings of health. I'm even more convinced about NANO SOMA's simple yet profound ability to bring the body back to its optimal health.

Helen D. Dec 2021

Richard,

I'm writing with this little story of the results of my knee replacement. From October 20th, 5 days before the surgery, I sprayed 5 times almost every 4 hours until the bottle was exhausted. The surgery went well. After the surgery, I sprayed NANO SOMA two or three times a day, five sprays under the tongue as the protocol goes.

In one week, after the bandages were removed, I sprayed NANO SOMA three or four times a day on the wound. I sprayed it also around my muscle tissue in the swollen areas. PT

(physical therapy) was advancing well. Two weeks after home care I went to the PT facility. The owner of the facility did not know me, but I told the therapist about NANO SOMA. He was amazed. The following Monday, he brought the owner over, (who did not know me personally) to look at the wound and they asked him how old he thought it was. He said it was a five to sixmonth-old wound healing and when we told him it was only 3 weeks old, he thought my results were fantastic.

After 4 weeks, I saw the surgeon and he looked at the wound and saw the progress - he didn't know what to say. I did not say to him what I did at that time - 30 days after the surgery which would take it to November 30th which is right around now. I'm able to get a 121° bend at my knee, the stitches have all healed, there's a line where the swelling is going down, and during the PT I'm walking without a cane or any aids whatsoever. Last

Wednesday, when I saw the surgeon, he could not understand how I was healing so fast. I told him about NANO SOMA. He immediately went online, found it with me, and he started looking at it. I said do your homework and get back to me. I guess this may be a big plus for pre-surgery and surgeries of all kinds of cases. He's very much interested, and he could not believe that I have advanced so far in such a short time.

Today, November 30th, at PT, they told me that I was advanced with a 6-month age of recovery. I can go up and down the stairs, I can do all these things. I get fatigued. It's still healing but they must understand the power of NANO SOMA.

I am speaking to people in New Hampshire, where I reside. People are awakening rapidly, and they see through this crap. Please pass this to Raghu and share.

Yours truly,

Charlie

Richard,

Part of the "trouble" with NANO SOMA is that I just don't have much that seems to need fixing, so the most dramatic issue — my thirty-year bout with Candida, which, thank God, cleared up in a week — has left me with little to note, other than my hair quit falling out and the several lipomas I've had for 20+ years have all but vanished. My friends and clients have been getting some stunning results, too — tinnitus vanishing, fungal infections of the feet secondary to Type II diabetes clearing up, eczema vanishing, joint pain relief, angry, defiant behavior in a child reduced significantly, taste and smell from long-haul Covid returning after a year post-Covid, etc. Tim S. November 2021

Hi Sean,

I'd like to share something with you but I don't know how you would classify it. About two months after I started taking NANO SOMA, I started getting an image in my head of an x-ray of my pelvic bones. They were standing straighter than I have been my entire life. So, I pushed in my pelvic bones

and thrust them out the way I "saw" them in the x-ray, and lo and behold, my stomach flattened out, my chest thrust out and my shoulders went down.

So, I started standing like that whenever I thought about it.

My lower back has been hurting me for YEARS. And changing my posture like that caused my lower back to hurt even more ... for about three weeks. But I just knew it was something I needed to do. I have been getting weekly adjustments for my lower back for years also and they never held. After about three weeks, the pain went away, and again lo and behold my hips started no longer needing to be adjusted because they were no longer "out" when I went to the chiropractor.

As I became accustomed to standing with my pelvis held straight and my posture straight, I am walking around pain-free now and it's a trip.

I think the NANO SOMA somehow sent a message to my brain about my posture. I don't know how, but I just think that's what happened.

Is there a place in the "Testimonials" book for stories such as this?

L., November 2021

In late August 2021, I had my first vaccine (Pfizer) at a Newtown location in Sydney. That same day I felt fine. The following day, I struggled to get out of bed, with a headache and suffering aches and pains and severe chills and not able to get warm, leaving me in this condition for two days.

On the third day, I felt some recovery. I've not suffered from any other conditions and/or felt this way ever before. On hearing about NANO SOMA and its ability to trigger a healthy response in the body, I was interested to try this product and look for a way to assist in reducing the effects of the Pfizer, jab as I was aware from discussions with others that with the second jab, I could suffer similar symptoms, if not worse.

I was guided on the use of NANO SOMA and on receiving it, I had a morning and evening dose, starting two weeks out from the second Pfizer jab. Knowing I had another jab coming caused some anxiety. I fronted for my second dose and went back to work expecting I would not be up and around on day two. Day two came and I was so surprised I was able to get up, shower, and get to the office with no symptoms or side effects from the second vaccine. I was so elated that I was not bed-bound. On continuing to take NANO SOMA, I have also lost a little weight, too. I'd recommend this product to anyone and my experience in using this has shown me that this product could heal

and cancel out the terrible side effects of the vaccine and I'm most appreciative of being introduced to it.

Many thanks

Best regards,

Matthew, November 2021

Late September 2021 on a Sunday, my mom was tired in the evening and went to bed earlier than normal.

On Monday morning she woke up and after my dad left for an appointment, she went back to bed. Something she never did and was found to be odd by my dad.

After my dad came back and my mom was awake, he noticed that her speech was slurred. He is a trained first responder and did a field test to see if she suffered from a brain infarction. The answer was negative. He called their general practitioner and explained the situation, after which the GP asked them to come immediately to him. The GP did the same tests and called the hospital straight after to inform them about my mom while my dad was driving towards the hospital.

In the hospital, the same field test was done for brain infarction which was, thankfully, again negative. My mom subsequently got admitted and tested for everything they can test. CT scan, MRI, blood, you name it and it was done. She was hooked up with antibiotics IV as the only thing noticeable was that the part of her brain that controls speech was inflamed. Next to that, a nurse that drew blood for the samples said that her blood was "thick". The blood thickness comment did not lead to testing for D-Dimer, unfortunately (checks for early signs of blood clots). After a couple of days of antibiotics, her speech returned to normal. After multiple more CT scans, MRI's and other tests, she was allowed to go home 7 days after being admitted.

I put her on NANO SOMA 4-5 days after she was home. She used it 5 sprays, 4 times a day on average until she finished one bottle which was 8-9 days. After that, she continued with one time per day 5 sprays. This second bottle will last her approximately 6 weeks.

After 4 weeks from being released from the hospital, she had a follow-up appointment where again CT, MRI, and blood were tested. The comment from the nurse that drew blood

was that her blood was so “nicely flowing”. In the conversation with the doctor, the question was asked if all of this could be vaccine related. At the time of admitting, between the second jab and being admitted 4 months and 1 week had passed. The doctor answered that he wasn’t saying yes or no. He found the entire situation odd. When asked about the blood thickness, he said that in retrospect he had looked at other indicators and nothing was worrying or out of the ordinary. At the same time, he also mentioned that given the part of the brain that was affected having smaller veins it could not be ruled out that “thicker” blood caused a lack of enough oxygen which caused the inflammation.

Both my parents are vaccinated. My dad has a permanent prescription of “blood thinners”.

To me, it sounds like that this prescription is benefitting him. He started also with NANO SOMA and found that it tasted terrible, which led to him taking it irregularly. My mom found the taste close to neutral.

Fast forward to now; all is back to normal. No follow-up appointments since the last one. My personal interpretation is that the vaccine is the only difference in her life. I also cannot say with absolute certainty that it was the vaccine that caused this inflammation. With more and more news appearing around vaccine side effects, I however do think that the vaccine was the cause of this inflammation. I can also not say with absolute certainty that NANO SOMA helped speed up the healing process. With all the information shared about NANO SOMA, including all the anecdotal stories, I am however of the opinion that NANO SOMA made the difference. The main part on why I think it did make the difference are the two nurses that made the comments about “thicker” and “nicely flowing” blood.

November 2021

I have been using NANO SOMA since December 2019 and I have just been told my biological age is ten years below my actual age, i.e., 66 and not 76, so that is good news, eh? Hope you are both scoring equally well!

Warm regards,

Susan Fairley November 2021

Dear Dr. Hillermann,

I have now been to my cardiologist for a follow-up with my cardiac arrhythmia. He certified that everything is absolutely fine. The cardiac arrhythmias that I had at that time disappeared completely after about 10 days of treatment with the NANO SOMA that you prescribed for me.

So, I am currently very happy. I spoke to the cardiologist about his experience in his practice with the vaccinations [Sic]. He said that he had seen several patients where 14 days after the BioNTech vaccination, something like this occurred.

With gratitude,
Jens K November 2021

Testimonial NANO SOMA

In late August 2021, I had my first vaccine (Pfizer) at a Newtown location in Sydney. That same day I felt fine. The following day, I struggled to get out of bed, with a headache and suffering aches and pains and severe chills and not able to get warm, leaving me in this condition for two days.

On the third day, I felt some recovery. I've not suffered from any other conditions and/or felt this way ever before. On hearing about NANO SOMA and its ability to trigger a healthy response in the body, I was interested to try this product and look for a way to assist in reducing the effects of the

Pfizer, jab as I was aware from discussions with others that with the second jab, I could suffer similar symptoms, if not worse.

I was guided on the use of NANO SOMA and on receiving it, I had a morning and evening dose, starting two weeks out from the second Pfizer jab. Knowing I had another jab coming caused some anxiety. I fronted for my second dose and went back to work expecting I would not be up and around on day two. Best regards, Matthew November 2021

Dear Dr. Presser,

Thank you, thank you, thank you for this incredible information!! You have just cleared my mind of horrible thoughts creating fear in me this past week. I was in close contact, in a very small room (my laundry room) for approximately 20 minutes with an electrician who I found out later was double “vaccinated” last week.

This past week I developed a rash on my left breast around the areola. Photos I found eliminated issues that cause similar rashes, like breastfeeding and other maladies, so when I found articles on IBC (Inflammatory Breast Cancer) I became VERY concerned.

Breast Cancer, specifically “in the left breast” runs in my family...

So, then my right breast started getting the same rash around the areola and both breasts started to become tender. Fearing the worst, of course, I immediately made an appointment with my doctor, but the waiting list is so long, the earliest I can see her is late next week!

The good news is, now that NANO SOMA has been in my life since May this year, I naturally started applying METASOMER Topical Gel and I started taking more NANO SOMA orally, and of course, true to its function, I have felt some relief.

Even though I was experiencing some healing externally on my breasts, I continued to try to determine what this rash could be from, other than IBC because NANO SOMA was helping my body heal so quickly... I thought how could this be IBC? Also, based on my research, most women only have IBC in ONE breast, not both, so I tried to determine what other causes this reaction could be from.

I changed laundry detergents recently to ARM & Hammer for “Sensitive Skin” thinking perhaps it was a healthier detergent. After checking reviews on this product (after the purchasing, which is senseless to do after the fact) I learned other people had skin reactions, so I looked for full disclosure on the ingredients and found that some are toxic! Although I have had high susceptibility to skin contagions since childhood, I have never had a reaction from a laundry detergent before, so I was still a bit puzzled but got rid of it just in case.

NOW that I received your email, I realize, the skin rash I am experiencing is most likely from being in close contact with my double jabbed electrician!!! I thought if I did not have “skin” contact and remained a few feet apart that the shedding wouldn’t affect me – BUT I WAS WRONG! I had NO IDEA about the skin rashes from shedding... I am so relieved but at the same time alarmed the shedding can do this!

I bet my doctor would have sent me to get a biopsy or a mammogram and put my body through unnecessary trauma. Mind over matter- I can almost see a difference in my rash simply from the relief of knowing about the shedding cause... since I started writing this to you today.

I hope you share this experience I had so other women who may experience rashes around their areola, who have been in contact with the jabbed, understand that it may not be something as devastating as the thought of having cancer.... I had NO IDEA. Thank you, thank you, thank you from the bottom of my heart, Dr. Presser, for all you do.

Kindest Regards,

Stacey G, USA. 30 October 2021

Dear Richard,

Thank you! I'm so grateful to be spreading the word about NANO SOMA. I have a testimonial for you, too.

NANO SOMA has been such a terrific, totally life-changing discovery for me. The most immediate and noticeable benefit I've had has been around a side-effect I would get any time I was around people who'd received the mRNA vaccines. Before finding NANO SOMA, I would have unexpected spotting or bleeds like I was getting my period either the same day or the day after, like clockwork. I am in menopause, so I knew there was a direct link as it only happened after I'd been out at the shops, or if I'd been in close proximity to friends that I knew had had the vaccine. As soon as I started using NANO SOMA these worrying episodes went away.

Then when I ran out of it for about a month, it started happening again. After going to get a massage with someone new I had one of the worst bleeds ever the next day, and large blood clots had formed. I was horrified and realised the masseuse must have just been freshly vaccinated to keep her job. Thankfully, my next delivery of NANO SOMA arrived a couple of days after that, and I've been back on it for a month, and I have had no further episodes. I will never go without it, now. I've also noticed an improvement in my skin and look forward to seeing what else improves over time.

Thank you to Raghu, Dr. Presser, and the whole team!!

Best, Liz. November 2021.

Aloha Dr. Presser, many blessings.

Through a mutual friend, I have been on NANO SOMA for almost 4 months.

www.magicdichol.info

10 November 2023

Wonderful product.

I can only say how wonderful that some of my issues have shifted since July. The first 4 days I did nothing but sleep. My friends have noticed the changes i.e., walking better, having more flexibility (not out of the woods, yet) and the neuropathy in my feet and legs is lessening; more to go. Since I am a sensitive, after the 4 days of sleeping, I divided my doses to am and pm; just now I am increasing doses. It doesn't taste as horrid as in the beginning. Joy replaces sadness, stamina returning, and making healthier choices regarding food, environment, and friends.

There are no words to express the joy that I feel when information came to me when researching water. The floodgates opened.

Blessings to you and Dr. Raghu and all others who have worked to bring this miracle to humanity.

Much love and peace.

Zosia M, 73 years young. November 2021

Richard,

On TWO separate occasions (this morning included) I woke up with a horrific sore throat - body aches - and ALL the signs of a very bad head cold or virus. (No fever) The kind of BAD virus or cold that gets progressively worse & will put you in bed for a few days to a week.

I (intuitively) sterilized an empty Saline Nasal Spray bottle - poured just enough NANO

SOMA into it to spray it & deliver it as far up into my sinus cavity as I could get. I then took a small glass eye/ear dropper and only put about 2 or 3 drops in it (for each ear) and dropped it directly into my ear canal.

Years ago, I remember a healer telling me at the very 1st sign of a viral cold or flu, etc., to put a few drops of Hydrogen Peroxide down in the ear canal as this is actually where the virus enters, sits, and grows to get into the nasal cavity.

So, I dropped about 2 or 3 drops of NANO SOMA into each ear - turning my head to allow the drops to get as far down the ear canal as possible. Then spraying into my mouth to swallow down my throat of course & get into my body.

What would have put me in bed for a few days to "ride it out" is over & done from a few hours to a day - then wake up like it's never happened. My only wish was that the NANO SOMA came in bigger bottles (more ounces) but am grateful for the access to what I have.

On my limited budget, I can't order multiple bottles at a time - but I make sure in my budget to keep a full bottle coming each month to always have NANO SOMA on my end table next to me.

With Immense Gratitude,
Susan T, 29 October 2021

MY 1ST NANO SOMA TESTIMONIAL

40 years ago, I was diagnosed with Glaucoma and was prescribed eye drops. During that time, my eye pressures varied in the 10-16 range. During the last 2 years, the pressures were 16, but in the last 6 months had increased to 18 on the left, and 20 on right. I started taking NANO SOMA 9 weeks ago, 5 sprays for 2 and occasionally 3 times daily. One week ago, the Ophthalmologist measured my pressure and the results were 10 in each eye!!
YIPPEE...SKIPPEE!! I am confident this is the first of many testimonials!
Thank you, Dr. Raghavan and Richard.

Leah. 6 October 2021

Hello Richard,

I continue to see improvements with NANO SOMA; as of this month, my biological age has gone down by 5 years since I started taking it in July. My chronological age is 59 and my biological age was 58 when I checked before starting NANO SOMA. This is very exciting, and I'll continue to share updates with you.

Thank you.

Joyce K-P. 2 October 2021

Wonderful product. It keeps me from taking so many products and makes me feel amazing.

Tasha B. USA. 8 October 2021

I was diagnosed with Asthma about a year ago, with a CT Scan showing spots on my lungs. I started NANO SOMA in May and had a follow-up CT scan in July. MY LUNGS ARE CLEAR! NO MORE SPOTS!!!!!!

Michelle, USA. 1 Oct., 21.

10 November 2023

I have a sister with Bipolar, and she was in the bathtub slashing herself up and crying and screaming. She also does the same taking off on walks and screaming and carrying on. I have had to get the cops so much involved. I never knew if I would see my sister again.

I decided to spray the NANO SOMA under her tongue to see what would happen. I sprayed three sprays under the tongue, and to my surprise, she calmed down. I have been doing this every day now and she has been staying stable.

Name Withheld, Sept. 21.

The appearance of a bruised leg injury soothed by the application METASOMER Topical Gel

To: Dr. PR Raghavan.

From: CM (Female -60).

Welcome to my testimonial!! In June 2021, I heard about NANO SOMA. I did my research, watched videos, studied the ingredients, and decided it was natural and I was going to try it. I had zero expectations going in, although, I knew other people using the product had experienced benefits and they were unique to the person. Being a 60year-old white female,

10 November 2023

and with the need to get in healthier shape, I decided to buy a bottle. I have nothing to lose and everything to gain I thought.

I have created a timeline of my NANO SOMA experience over the first month so you can see how it helped me. I used 5 sprays a day. The first two weeks, I took 3 sprays in the midmorning, 2 sprays at night. After that, it was 5 sprays a day at no pre-set time. As a side note, I admit, I used PH9 water for the first two to three weeks since it's what I use after working outside in the extreme Arizona heat.

I've included my Log of Notes so that you may experience my progress as I went through them. After a month's post evaluation, NANO SOMA exceeded my expectations. I'd like to thank Dr. PR Raghavan for his support as I began this amazing journey to improved health.

Log of Notes

Day 1

In an hour, my blood pressure lowered on its own. I felt the tingle in my head. I had a histamine reaction as if something is working to heal my sinuses.

I had a mosquito bite mark on my arm that was a little swollen and painful to touch. They normally take 10-21 days to heal. It express-healed overnight. The site is a little pink, flat, with no pain and it'll be gone in a day or two.

Day 2

My ankles have been more swollen for weeks but today they are normal. I'll see how today goes. My blood pressure feels like it's on target. o I slept great last night. I haven't slept that well in weeks. Thank you, NANO SOMA! o My energy improved midday on

Day 3

I had the mindset to cook a meal that I haven't done in weeks due to an allergy attack and insect bite.

I noticed my eye tear ducts were secreting as if I have bad allergies. I assumed it's cleaning out toxins.

I am getting stronger—for example, I'm able to increase my capacity of carrying weight in my arms and improve balance when going up my steps in my home. After two knee replacements, a tendon repair, and a tendon reattachment a couple of years ago, this is a huge improvement to my life. My last tendon repair has been a little sensitive. It feels like nerves repairing after 2 years!

Day 4

I came inside from gardening in 95F Arizona heat. I wasn't winded or even a little shaky. I didn't need to sit to recover. It was amazing.

I'm noticing a change around my Total Knee Replacements (TKRs). It feels tighter and the muscles are more stable when going up steps, although I didn't think after two years that could happen— self-repair. I'm amazed. My surgery scars are starting to diminish as the epidermis is repaired. That's unbelievable. I took images yesterday when I noticed it starting so I can track any changes. The scar was, for a lack of a better word, peeling off in some areas. NANO SOMA is allowing my body to heal my epidermis layer. Wow. My face is more moisturized. My energy is increasing and I'm in the mood to clean. Less brain fog - nice.

Weight Loss: Down 0.5 to 1lb a day. For the first 24 hours, I was down 1.5lbs. o I trimmed all the trees and bushes in my back yard for 45 minutes in 110F temps and after finishing, entering inside the house, within 2-3 minutes and a little sip of water, I'm back to normal.

Day 5

I woke up for the second day at 6:30 am. I normally get up hours later and am sluggish. My energy is 2 times the amount I had when I started 5 days ago. o My brain feels alert early in the day.

I worked outside and installed trellises for my vine veggies in my garden. It's hot here in AZ, at 105F at noon. I don't have any issues and don't feel overheated. I recovered inside in 2 minutes and not two hours.

Unbelievable.

I'm in the mood to clean anything and everything in the past 24 hours.

This is amazing. I'm drinking 3 times the water with all the outdoor heat.

My BMI on my scale has gone down 1.8 points and my water percent is going up. This shows progress.

Talk about inspiring.

I'm not craving sugars or carbs as much in the past 24 hours. I manage my glucose by diet.

I've had the best night's sleep in decades.

This one is a bonus factor. I have always been able to sense when I'm close to radiation, larger security systems, or radar waves from various environmental situations on my arms. Think of it as the feeling of those electromagnetic science spheres when your hair stood on end. What is amazing is, now my shins are feeling the energy when I'm close to a 5G tower, etc. I guess my body is healing. Nice.

Day 6

Bone Density Increase:

My scale showed my bone density went up 0.1 from 6.5 to 6.6, and I tried it a second time because for 5 years since I've had this scale it's never changed from 6.5.

Weight Decreased: I lost 5.3lbs in the first 6 days. Toxins...

Nail Health: My fingernails are growing faster - 3 weeks' growth is now in a week.

Day 7

Nerve Repair of Knees: It's 2 years after my right knee replacement that had tendon repairs and tendon reattachment, and my nerves are repairing around my right knee.

I could feel its repair in the past

24hrs— that zapping pain twitch at certain times. I have always had a numbing feeling around a certain area of my knee. In the past week, it's repaired most of the nerve damage, and note that I had not seen an improvement in over a year. I couldn't lean up to anything with my knees touching it without feeling this tingling pain. As of now, that tingling pain is nearly eliminated. This impacted my everyday life in so many ways. I was informed after the TKRs, by my surgeon, I'd never get that feeling back again around my knees. Well, he needs to know about NANO SOMA! This could help so many people and improve their quality of life within weeks after their surgery!

All my cravings for sugar & salty foods are gone. I'm eating more organic fruit such as peaches & cherries.

Muscle repair: Getting stronger.

Day 8

I was told years ago that I'd have a chronic sinus infection unless I had surgery. It seems as of yesterday, after 7 days on NANO SOMA, my chronic sinus infection I've had for a decade has vanished. It's amazing.

My neck skin is younger. My body working with NANO SOMA is becoming a powerful partnership. I notice my stress has decreased. It's likely due to a combination of less pain and more energy.

- 37 -

For more information on the MagicDichol Family of Products, go to

www.magicdichol.info.

10 November 2023

Sleep: My sleep has improved. I'm waking between 6:30-7:30 am. Before NANO SOMA, my sleep was so confused...up awake until 2 am-4 am, then attempting naps to recover. I hope this continues.

Pain in iPhone typing right hand has lessened to almost no pain. I'm grateful for the repair.

My teeth are whiter. Nice bonus.

Day 9

I'm continuing to improve in the heat. 105F feels like 95F now that my body is cooling better. I can do my outside tasks and come inside and continue with other tasks. That's a 2-hour efficiency benefit. My leg muscles and nerves are continuing to improve. You don't know how nice it is to walk without a bunch of numbing tingly feeling bands around the knees.

It's a 50% more improvement in one week

My eyes stopped eliminating toxins after 3 days. It was like a bad allergy attack, then after spraying NANO SOMA in the one eye, I recovered the next morning.

I've had pain under my left front rib in one spot for decades. I had every test done by several medical professionals and they could never figure out what it was. I met one other person who had it in the same spot and her medical team couldn't figure it out. Well, NANO SOMA helped figure it out. It's

been a few days and I realized as I was typing this, I have no pain in that area. It's a miracle.

My energy continues to increase, and my sleep is the best it's been in 5 years. Thought for the Day: I wish this product grew on a plant in my garden so I could grow it and share it with those in need.

Day 10

I noticed inflammation throughout my body has decreased significantly including (this may seem odd) my tongue. I think my distance vision improved after 3 days of the toxins being released. o Sinusitis—for certain, gone.

Day 11

My eyes are changing to a multi-jeweled color. They're brighter. They were a blue gray. Now they're a blue-teal-gold in the evening. I'm going to watch this to see if there are more changes. My right ear is doing some repair. I think with the sinus repair, it's finishing things around the ear now.

Day 12

I've lost my appetite for red meat products. I had a chickenpox scar that disappeared. I've had it on my face since I was 6 weeks old when I had chickenpox.

My TKR scars are 1/2 the width in most places now and flat. It removed a tiny piece of thread left behind. Thank you.

I'm coughing sporadically. Nothing exciting. Not an illness. (No vaccine.) It's probably clearing a few toxins in unknown places. Do it. You have my permission. o I didn't think I had a lung problem and after two weeks of NANO SOMA, I felt my lungs were lighter and it was easier to breathe. I'm completely off any allergy meds.

This is amazing! I've been on them since I was 11 years old. As for night-time dreams, I'm remembering more of them now. I can start the types of dreams I want for a given night too. It may be the mental clarity that helps in this process.

Day 15

I don't need caffeine but I'm craving anything with lemon/citrus.

I haven't eaten red meat in several days since I'm no longer craving it. NANO SOMA must be a great nutritional traffic cop to effectively use what is in your body. o Nerves around the TKRs are over 90% repaired.

Day 16

My muscle strength in my legs around my knees is so good, I no longer must watch my feet going up the steps so I don't fall. I honestly wasn't aware I was looking

down until I stopped looking down, and then I panicked one day and realized that my body had recovered, and my brain knew that I no longer had to use the 'backup plan' of looking down to ensure I would get on the stair steps properly. I was tearful on this one once I realized what had occurred, and how my life changed at that moment.

Day 26

I got up off a low pouf the other day without hanging onto the chair. That was a first since the knee surgery. I am blessed From a sitting position, I can put my elbows on my knees without experiencing a shooting pain to my knees.

Day 28

Eye 'floaters' are dissolving. Now, they are tiny dots. They shrunk 95%. I'm amazed and grateful.

My 61st birthday is Oct 17th, and I am feeling good this year with more to go in the coming months. I've been working on minor home improvements with more energy. I trimmed my huge 12-14ft Bougainvillea's yesterday that are intertwined into my Acacia/Senna tree. I use the super heavy loppers to get to the top. My daughter and I moved outdoor furniture around, I cleaned the outdoor area rug and hosed it down. I swept pavers, watered all the plants, and came in and wasn't shaky or exhausted at all except I was a bit hot— normal in 90s heat in AZ. I couldn't say or do all that 2 months ago.

This observation is entertaining. I noticed when I'm sleeping, I awaken because my knees touch (my mind thinks, what's touching my knee? Oh, my OTHER knee 😊 ha-ha – back to sleep...) Funny, yet real-life improvement observations in motion. Overall, I'm getting pieces of my life back that I had no idea I was missing or lacking. The past 3 years were full of challenges with three major knee surgeries and learning how to walk again. I'm turning the corner...I see it. I feel it. I'm grateful for it.

Thank you for being a part of this transformation.

CM, USA, September 18, 2021

To: Dr. PR Raghavan.

From: MS. CM, regarding my daughter.

Daughter: 33-year-old white female.

Diet: Keto.

Epilepsy – Identified at 26 years old at Mayo Clinic. The type of condition is Periventricular Heterotopia. It is a condition in which the nerve cells (neurons) do not migrate properly during the early development of the foetal brain. It is inherited from the male gene.

Started NANO SOMA... First week improvements:

- ✦ Sinus cleansing – in her cheeks and her eyes were watering and her head felt light which could have been blood pressure.
- ✦ Decided to get back on the Keto diet at the end of this week when she had more energy.

Second week:

- ✦ Short-term memory – short-term memory improvement – able to recall the prior day's activities quicker.

No seizures before her monthly cycle. No seizures during the week.

Third week

- ✦ Calmer with loud sounds and interruptions - she normally would jump because, for every one of our thought processes, she has 50 times the reaction per the

neurologist. In the sound scenario, it would be 50 times greater than how we experience sounds. The nerves seem to be healing and decreasing the repetitive traffic before it connects properly within her brain. That means less traffic back and forth, less chance of a neuro issue creating the seizure condition.

www.magicdichol.info.

10 November 2023

✦ This was a tough mental week for her as I believe there was a great deal of healing. She was very tired and slept more than usual.

✦ One seizure, but I believe it was due to her taking ½ the normal dose of medicines that day.

Fourth week:

✦ Positive attitude and outlook.

✦ Sleeping back to normal.

✦ No seizure.

✦ More helpful around the house with more energy.

Fifth week:

✦ Memory recall improvements were noted.

✦ No seizures.

✦ Increased responsibility and did not need reminders as often.

✦ More creative thinking in deciding to design her own bakery business and layout of the building and menu options.

✦ Improved problem-solving skills when putting a dresser together with me.

✦ Continued to be helpful and take ownership of her tasks without as many reminders.

UPDATED OCTOBER 9TH

Sorry, this is so late, but I didn't want to forget.

My daughter made it through a month without a seizure. A major, major accomplishment. She's on her Keto-style diet, her seizure meds, plus NANO SOMA, 5 sprays a day. She started the gel on her face a week ago and she came to me all happy this morning— "Look, Mom, no lines on my forehead!" I replied with a positive compliment and then said, "Now, imagine what it's doing to the inside of your body." She's starting to turn the corner into believing what it can do for her.

She's had an ongoing issue with her hair falling out in handfuls after it's washed. It's a side effect of the meds. I'm wondering if NANO SOMA will help over time to manage it so it lessens. Any success there? I told her I saw smaller pieces of hair on the front bangs area hairline in the side corner—which was true. I think it helped her spirits.

As for me, I've had a right eye infection (itchy and below eye skin burns and is red and swollen from wiping the eye so often), then a left eye infection, and back to the right eye, and with two days of sprays once a day in the eyes, NANO SOMA cured it each time. Then, I had a little upper respiratory allergy cough for a couple of days and doubled up my dose of NANO SOMA for 3 days to 8-10 sprays. My body healed quickly. My sinuses have been cured of chronic sinusitis—no relapse. I'm saving so much money on the allergy meds—more than the cost of NANO SOMA!

CM, USA, September 18, 2021

NANO SOMA has given me more energy and more motivation to accomplish anything I need to do. Work doesn't seem like drudgery anymore! I'm so thankful to God for this product.

Alice R. RN. USA. 8 October 2021

Years of very strict diet regulation have eased up with the addition of this product to my regimen. God has directed me in many directions to teach me many things about wellness. I'm grateful that He has given me a wider range of foods to eat now. Not just meat anymore, but fruits and some kinds of goat dairy with very few issues. God is certainly working through this product.

Name Withheld, USA. 8 October 2021

I have been using NANO SOMA for about 3 months now. Lately, as crazy as it may sound, I have been noticing more instruments in the music I listen to. I hear little background chimes that I never noticed before. My hearing has always been good, but it just seems better. Also, my sinuses have never been better.

Bernie B. USA. Sept 28, 2021

I started NANO SOMA on July 26, 2021, using the protocol provided, though because of my many health problems, I continued using 5 sprays 4 times a day until week 7 when I was running out. I took it only 2 times a day until my new order arrived on September 19.

I had gone to the eye doctor on August 16 because I was having problems with my glasses (headaches and poor vision), and I figured I needed a stronger prescription as I had for most of my life. The eye doctor was upset at the first appointment and asked if there was a change in my diabetes medication. There was.

On July 27, the MD had reduced my dosage by stopping 5 mg of Glipizide that I took daily in addition to my 1000 mg of Metformin, probably because I had lost weight and my A1C was now 6.6.

The eye doctor suggested that I schedule an appointment when my blood sugar stabilized. Although it wasn't really "unstable" because it is always under good control, I did so. At the second appointment on September 24, she was still a bit upset.

She said it was rare for a person to go from a 6 to a 4.

I see in comparing the two prescriptions that it wasn't quite so stark, but it was a definite improvement in both eyes. I had no exam in 2020 because of the Covid shutdowns.

Best,

Kathie K, USA, Sep 26, 2021

NANO SOMA is the Real Deal

My name is Matt, and I'm writing about the experiences that a friend and I have had from using NANO SOMA for only a few weeks. My problem has been intermittent bouts with tinnitus or ringing in the ears. It's particularly present when listening to music at even a medium volume level. As I used the first bottle of NANO SOMA, I became aware that I was experiencing longer periods without the ringing in my ears. I will keep using the NANO SOMA so that the tinnitus resolves and continue to use it afterward for longevity and anti-aging. I also notice an anti-anxiety effect and a feeling of being more "in the present".

A good friend of mine had back surgery a couple of years ago. He injured himself from exercise and years of squats, so had to have very invasive surgery. Months went by after the surgery, but it never reduced his pain, and drugs didn't relieve the pain and stiffness. I suggested he try every nutraceutical there was for inflammation and pain relief. This went on for months and months, but he didn't respond to any of it.

So, a mutual friend started raving about NANO SOMA and how he had cancelled a scheduled knee surgery because the NANO SOMA repaired the knee problem. So, my friend with back pain tried the spray and after a short time, he was incredulous that he had nearly complete relief for ten days straight. I spoke with him today and he had a recurrence of the pain, but he will continue because as Dr. Raghu has explained, the healing doesn't always occur in a straight line, sometimes it's more of zig-zagging to reach your health goal.

I've been researching and using vitamins and nutraceuticals for forty-five years and I haven't come across anything like NANO SOMA in that time.

Matt, September 7, 2021

Richard,

I first was introduced to NANO SOMA by an alternative news video blogger about four months ago. I'm not sure I remember exactly who, perhaps Cliff High or Cirsten W. It was someone who gives good information in my experience. All I heard was the name and used Duck Duck Go to search for a phonetic spelling. I was given links to the various stores. On the US store, there were enough links to the introduction and testimonials that I was intrigued by to look further.

I'm familiar with a great number of alternative energy folks from Nikola Tesla's work on up. In the late sixties, I read all of Wilhelm Reich's works (you could still get them used at the time) and started studying Orgone Energy. My studies were practical. I learned to go to the beach on brilliantly clear days and throw my eyes out of focussed alignment, which observes reflected light, into a parallel alignment to observe emerging light... aka Orgone Energy. I found that was the same as Chi and Prana. But I digress.

So, I was intrigued by NANO SOMA. After reading all the testimonials I decided I had an issue worthy of experimentation. On one cheek, high on the cheekbone, I had an area of red, flaking skin. It had been with me for over twenty years. I attributed it to sun damage. Because of the testimonials of people who had skin issues resolved, that was my primary area of experimental observation. I purchased three bottles a couple of months ago and gave my cheek a mini-spritz of NANO SOMA twice a day by massaging it in, and four sprays in the mouth. That skin issue is completely gone as

well as two patches of sort of dry, peeling skin on one hand that had been an annoyance for at least five years. Gone.

As I've used the NANO SOMA for the last two months I suddenly realized, just yesterday actually, that I hadn't taken any Ibuprofen to relieve pain in a bad hip. My arthritis and bone degradation was the result of a thirty-five-foot fall off a telephone pole when I was a lineman at 19. My neck which has been stiff for years is loosening up as is a shoulder that was damaged in a separate injury long ago. In short, I'm positive about the skin problem resolution and suspect the others are being helped.

Because of the beneficial results I've experienced, I decided to 'double down' on NANO SOMA and purchased 24 bottles. My specific area of inquiry will be eyes. I have a macular pucker in one eye and a cataract forming on the other. After reading about people experiencing positive effects of NANO SOMA in the two areas of my eye issues, they will be the focus of my experimentation. I have high hopes.

Thanks for your work to save the world!

Welles G, 6 September 2021

Thank you so much for NANO SOMA. I was truly suffering from all the bug bites on my back, neck, and arm. For the last few weeks, the itching has been so severe, I was literally up 3/4 of the night scratching and pacing the floor from being so uncomfortable.

The day you saw how bad the bite was on my arm, I was at wit's end. I had become so sleepdeprived it was difficult to function. My work was sincerely affected. I was exhausted.

Then NANO SOMA to the rescue. My bug bite had swollen to the size of a fifty cents piece. The itching was non-stop. It was awful. I put NANO SOMA on the bite twice in the afternoon and then once more before bedtime. That was the first good night's sleep I had in two weeks. When I woke in the morning, the bite was the size of a pinhead. The itching was 100% gone. I was stunned and amazed.

So, thank you, sir! When you speak with the gentleman who created this amazing product, please extend my sincerest gratitude. NANO SOMA is a miracle cure for severe, swollen, infected bug bites. The efficacy of this product is astounding and has my backing and respect.

Thank you, friend.

Kindest Regards,

Barb. September, 21

Dear Richard,

Thank you always for your updates! I look forward to catching up on the most recent news and happy testimonies. I have waited for months to share with you a testimony! For me, it has been worth the wait! I am delighted to share this wonderful bit of news!

In 2012, I received that diagnosis no one wants to hear... Stage 4, Non-Hodgkins Follicular Lymphoma. I went through the usual Western medicine treatments back then not knowing what I know now about cancer. My blood work was abnormal for years. I began taking NANO SOMA in 2019 and always felt a sense of well-being. I knew something good was happening in my body.

In June this summer, I had another dreaded PET Scan. Oh my! the results were amazing!!! NO evidence of reoccurring Lymphoma! As well, ALL my blood work had returned to NORMAL! Everyone was astonished, to say the least.

I have always sensed that NANO SOMA is a truly divine gift from God. I am now completely convinced!

As a 72 yrs. old great-grandmother, I have received a new outlook on life with extra energy to spare!

My sincere, heartfelt thank YOU, Richard, for your part in spreading the GOOD NEWS and for always reminding me of what a necessary gift to LIFE this product truly is!

Blessings always, Martha

B, August 13, 2021

Hello, Richard.

I'm writing to tell you about an experience that I had a few days ago with NANO SOMA. Two days ago, I was pan-frying a steak in a hot cast-iron skillet. One time when I flipped it, the steak almost slipped out of the tongs and splattered hot oil all over me. There were two similar splatters on my hand and wrist. The spots had already begun to form blisters. I got the NANO SOMA and sprayed a little into my hand and dabbed some on the spot on my wrist (B). I didn't put any on the area where you see the blister. (A) When I woke up the next morning, there was no sign of the spot at B. Even when I touch the area with significant pressure, there's no indication of any injury whatsoever. This is an amazing product!

Dear Richard,

Thank you so much for your latest and always wonderful update. I am onto my 3rd bottle. By the start of the first bottle, and after just 2 doses of 5 sprays of NANO SOMA, my bowel normalised. My problem had been an irritable bowel so that one day they were loose with lots of gas, and the next day constipation and straining, and sometimes bleeding from haemorrhoids!! So after just 2 sprays, my bowel normalized, and no more haemorrhoid!!! Extraordinary result as I am now having normal bowels every day. I have been on a probiotic for years. Also, after one bottle my friends started commenting on the phone, "you sound amazing! I can hear how strong and confident you sound, and positive!!!"

\Richard, I am 77 and have lived on my own as a widow and on the pension, and I have toughed it out since the loss of my fabulous husband of 40 years marriage from medical malpractice. I only discovered after he died that he had been on 2 statins, Crestor, and Lipitor for several years. At age 67 he had a stroke. You could not imagine a more powerful, brilliant man...and a successful entrepreneur and humanitarian, husband, father, and grandfather. I am onto my last bottle, and I am stronger, happier. and sharper in my brain. Most of all I am motivated to do things in my home, which is such a blessing through this miraculous food.

Thank you again, Richard, for your marvellous updates and God loves you and Raghu!

I shall be ordering more next week and shall never stop. In unceasing gratitude,

Thank you! Carol Q, 3 September 2024

Dianne

S. USA. 27 August 2021.

Thinning hair reversed by NANO SOMA.

Delores, USA. 17 August 2021

This product has completely turned my life around. I'll be the first to admit that I was sceptical at first, thinking with a programmed mindset (compliments of belief systems and indoctrination), that nothing outside of so-called modern medicine, along with its treatments, pharmaceuticals, vitamin industry, and cutting-edge (emphasis on "cutting") technologies, could begin to help with the issues I was facing. Issues that I now realise were merely outward expressions of imbalance taking place within my body. I had begun my journey in February 2020, with breast surgery and removal of lymph nodes, followed by two additional surgeries in February 2021, along with an untold number of tests, scans, and labs, while experiencing consistent and unwanted weight loss throughout the entire process. During this time a friend had offered me information on your product, suggesting that I might consider giving it a try, as it might "kickstart" my body's ability to heal. (Well, it ended up helping me in ways that I never would have dreamt of!) After

speaking with one of my physicians, I decided to stop all "treatments"... right down to the various vitamin and minerals I was taking. I had just received the results of a very extensive 29-page workup, was looking at yet another lymph node situation, an area on my knee which I was told needed biopsy, and bone lesions extending from my hip into my femur. Presented with all of that, I knew at that very moment I was done being irradiated, medicated, and going through more surgeries. I decided to try NANO SOMA. I tried it on each area of concern twice daily, along with six sprays twice-daily sublingually, for two months. My body must have been totally depleted and in great need of help in getting the proper "nutrition" into my cells! I was able to enjoy a 2-pound weight gain (the first gain in over a year!), the swelling and tightness in my

-

50 -

For more information on the MagicDichol Family of Products, go to

www.magicdichol.info.

10 November 2023

knee completely disappeared, the lymph tumour majorly reduced in size, my labs came back nearly perfect range, and the bone lesions showed as having no new change... no rate of growth! My oncologist (quite perplexed and surprised) has ordered a follow-up scan for September.

I'd also like to mention that I live in a region known for poor air quality, which can play havoc on anyone who suffers from yearly sinus issues... Since using NANO SOMA, I've noticed that my lungs are clearing respiratory irritants better than ever before! I realise that everyone is unique, all having different needs to be met and our bodies react differently in bringing about optimum health and balance... I am so much more than grateful for the transformation I have witnessed in my body's natural ability to heal since using NANO SOMA. To me, it truly offers the gift of restoration. Thank you seems too little a phrase for something so beneficial.

Jo N. USA. August 2021

Hi Richard,

I did the start-up protocol about a month ago, and quite honestly, I LOVE NANO SOMA so much that I take it between 2 to 4 times per day x 5 squirts. My body loves it, I love it and I feel so alert, my skin looks younger than a 40-year-old, and what can I say...I am immensely grateful. Looking forward to getting it again. I can't thank you enough for your commitment to the VISION. Enjoy the rest of your day/evening.

Best Regards, Allie. USA 12 August 2021

Hi Richard,

I have to say that in addition to the other things I told you about, one of the BEST things of all is the regularity of my bowels. I have had a mild form of constipation my whole life. NO MORE!!! Also, when I began the NANO SOMA, I had a small wart-like growth on my back. Totally gone now. I love my NANO SOMA!!!

Allie. USA 13 August 2021

Hi Richard,

I hope this email finds you well. I am writing to share my experience with NANO SOMA so far. I have been on the natural and self-care wellness path for about 20 years and I use a lot of high-frequency nutraceuticals. Before I start using a product, I learn as much as I can about it to have a

- 51 -

For more information on the MagicDichol Family of Products, go to

www.magicdichol.info.

10 November 2023

good understanding of how it works and how it will benefit my body and my overall health; and also want to know it is safe.

This is the first time I'm sharing my experience with a product. I decided to keep track of my experience and share my story based on the information I read, the videos I watched, and especially the incredible testimonials I read. I have a part-time wellness business and use a simple, non-invasive FDA Cleared Class II medical device that measures arterial stiffness index and biological age in my business. I was, therefore, very intrigued to learn that Raghu has been aging backward since he's been using the product. I decided to check my biological age before I started taking NANO SOMA. I'm 59 years old, and my biological age was 58. My arterial stiffness index was 3, which is a very good index. The stiffness index range is 1-8, with 0-3 being the best range, 4-5 in the middle range, and 6-8 being the worst. I planned to check again after one month on the product.

I followed the protocol on how to take the product - 5 sprays 1x/day for a week, 5 sprays 4x/day for the second week; 5 sprays 2x/day week 3, then on to 5 sprays 1x/daily. On day 4 on the product, I noticed that a swollen lymph node (not even sure if it's a lymph node, calcification, or scar tissue) in my right groin which was about an inch and a half in length, but not sure how deep it was in my body, had reduced in size by over 95% and is now about the size of a pea. I can't remember when it first showed up, but I know it's been there for over 10 years but didn't pay much attention to it because it didn't bother me, no pain, didn't increase in size - I just knew it was there and one of those things you 'live with'. This was so shocking to me, that taking just 5 sprays once a day would produce such results. This was not even one of the symptoms I put on my list to watch and see how NANO SOMA would help. From the little understanding of the product taking care of critical things first, I know how important it was to start clearing the issue that created this symptom.

After seeing such results in such a short time, I decided to check my biological age again after two weeks (5 sprays 4x/day); instead of one month, just to see if there was any change because that would be the real test for me as it tells what's going on inside my body. I did a repeat test of the arterial stiffness and biological age test. My biological age had gone from 58 to 55; gone down 3 years in two weeks! Incredible! My arterial stiffness had also gone down from 3 to 2, which is excellent. I did another test after one month, and my biological age had gone down another year - down to 54! My arterial stiffness index was still 2. To have my biological age go down by 4 years, 58 down to 54 is nothing short of staggering. This is so much more important because it is a good indicator of what's going on in my body. I also understand that the health challenges we are NOT aware of, are way more than the ones we are aware of. I know a lot of changes will continue to take place in my body and I will continue to be on this product. I'll continue to share updates with you.

Thank you - J.A.K. USA August 8, 2021

Spider bite was completely gone in 60 hours +/- Here is a photo of a spider bite that I sprayed directly with NANO SOMA. A.

Within about 30 minutes, the spider bite welt/blister grew to the size of a dime, turning white, surrounded by redness.

Itching followed and the welt appeared to be getting larger, with the welt surrounded by red skin.

Put NANO SOMA on and within seconds, itching was gone.

Within 60 hours of the first NANO SOMA application (3X's), all signs of the bite were completely eliminated.

Blessings, M. Justin Elledge. USA 8 August 2021

While cleaning the garage I was bitten on the back of my elbow.

Dear Dr. Richard Presser,

I started using NANO SOMA spray-on 07/07/21 and was very interested to see the results.

I reached out for NANO SOMA because, since 2012 - 2013 I have suffered from Irritated Colon Syndrome that caused tremendous pain in my lower abdomen at least 1 week before my monthly period. The pain was so intense that for the entire time I was exhausted because I would wake up multiple times during the night being in pain. Also, the pain was present during the day and people around me could see the pain on my face. (The pain went back and forth and each episode of intense pain would be for 15-30 min at a time.) When I received my first order of NANO SOMA, I was in the middle of an intense pain cycle, unable to rest at night. I had my first 5 sprays in the morning of 07/07/21 and that day and the next day was pain-free. I could not believe it. I was so used to being in pain multiple times a day and at night, and when 2 days passed with no pain, I was extremely happy.

For me it tastes soapy - really strong taste in the beginning - now it is less soapy, but still tastes soapy :) I know I have a lot of healing to do and I'm patient. I wanted to write to you right then, but I said to myself, let's wait another month and see what's happening next time before my period, just to

- 53 -

For more information on the MagicDichol Family of Products, go to

www.magicdichol.info.

10 November 2023

make sure I'm not living in a dream :). So, I waited and used NANO SOMA for a month (1st week I used 5 sprays 2 times a day, and after that 5 sprays, 1 time a day.)

This month, I noticed a tremendous improvement. Some pain but not that intense and not that often. My period came on time and after so many years of suffering, finally, I was able to rest during the night and function properly during the day. I also noticed an improvement in my energy level. I'm not snoozing my alarm in the morning so many times as before (I used to snooze my alarm at least 4-5 times - 15 min in between the snoozes, because I could not wake up in the morning, no matter how early I go to bed the night before). My mind is clear now, I'm happy and energetic. My colleagues at work noticed the difference and they admire me for my positive and energetic attitude every day. It gives them energy as well :) I talked about NANO SOMA with my family in Europe and ordered some bottles for them, and they were already on their way (due to the delay in Germany). Once the store in Germany opens, they will be ordering directly from there. I also talked with some of my friends in the US about it, and I'll continue talking about NANO SOMA benefits.

I plan to continue using NANO SOMA spray, and I'm waiting for the gel and cream in the US as well. I want to see if my parotid gland tumour will respond to the NANO SOMA spray, and as soon as the gel is available, I'll use it to massage the area where I see the lump growing again (after my surgery in 2018, the lump is coming back and I don't want to go back to the painful experience of another surgery). I believe that NANO SOMA will help teach my body to heal itself.

With great appreciation, Felicia S – Chicago, USA. 44 years young. 6 August 2021

Aloha Richard,

Mahalo so much for your e-mails & all the wonderful testimonies! They are fabulous & I too have one. I am one person, who I hate to even say these words but not a lot works on me. I just don't FEEL much from any products I've taken for years! But I've had very achy legs and just 'restless legs' I guess, and NANO SOMA has helped me tremendously, I am so grateful! Mahalo so much!!:>) That is NOT why I am writing but did want to share that.

I have a good friend who had her hip broken when she was a teenager. She has had 4 hip replacements & during one they used cobalt, & she had a terrible reaction to the cobalt. It gave her diabetes pretty badly. She also lost a lot of her hair & teeth.

Thanks so much, Aloha, Cheryl P. USA 6 August 2021

Here is my testimonial: (Sorry this is so long)

I started NANO SOMA with the 5 sprays, 4 times a day for a week because I felt I have many issues

that might be improved. Then I did the 5 sprays 2x a day to finish another bottle in 2 weeks. I have needed knee replacement for 7 years now in both knees. Lots of pain. I was still able to do gentle cardio through at least 5 of the years and it helped with inflammation. I don't believe in putting metals into my body, so I just dealt with the pain for that time instead of surgery. After roughly 5 years I decided to try stem cell injections. These were expensive. Throughout the last two years, I put \$2000 worth of stem cells in my knees every six months and did it three times (At \$1000 per knee). Each time I waited for at least 5 months to see if the knees improved. They did not. I am certainly not rich but was hoping to avoid surgery. I kept thinking that the next dose would be the one that worked since my knees were so damaged from waiting so long. \$6000 wasted. I know stem cells work for some people but for me, it didn't work at all. I do trust my alternative health practitioner, so I know she knows what she is doing. I just don't know why my body didn't respond.

After all this, I cried and cried and didn't know what to do. I was so hopeful for this procedure. I was ready to give up and have a knee replacement, but I still kept putting it off. There came a time in the last year that I could no longer do cardio due to the pain level getting worse. That raised many other problems that come without exercise. My practitioner said that my circulation had become very bad from inactivity among other things. I was now a couch potato, and I love to exercise and stay fit.

Anyway, immediately after I finished the intensive NANO SOMA treatment, I noticed that the pain has gone down substantially and mostly remained there with a few bad days occasionally. I would say from a constant pain level of 10 as high pain, I am now most regularly at 3 and a half to a 4. That's how fast my pain level went down. I am so happy! It seems to me that the NANO SOMA kick-started my knees to begin healing. I don't think it was just a coincidence that my knees feel like they are beginning to heal now that I am using NANO SOMA. It has now been 5 weeks and I feel like my knees are slowly but surely healing. This is the best they have felt in years. They are still weak from non-use for 7 years, but I know that as I continue this treatment, I will gain my strength back as well. I feel fully confident that I won't have to have surgery. I almost feel that in another 4 to 6 weeks, my pain level could very well be gone, or down to a 2 or I will do an update again at that time.

Now, I have to say that I also had purchased a Bemer (pulsed electromagnetic field) machine 5 months ago and was seeing small changes with daily use. It would take the swelling and inflammation down with everyday use and I was able to do a bit more around the house. The Bemer rep had said that many people did not have to have knee surgery with continued use. She did say it would be slow. I think that my knees may very well have healed if I had kept diligently using the Bemer but the healing was painfully slow. I was indeed seeing small improvements though. So now I still use both the Bemer and NANO SOMA. Once I finished the two bottles of NANO SOMA is when I saw the healing begin to speed up.

On another subject, I have been struggling with insomnia for the last year or so. Of course, then I was tired all day long. I have been seeing some improvements in that respect also. Not perfect yet but getting there. Some better sleep and also some bursts of energy during the day. As I said, I will do another update in a couple of months or so and let you know what improvements I see further down the road.

Thank you so much for the NANO SOMA. I feel like I am getting my life back!

Rosemary Beare. USA 3 August 2021

I began taking NANO SOMA in utter desperation 5 weeks ago. I have improved in numerous ways that have raised my quality of life in body, soul, and spirit. I credit NANO SOMA with turning around the death spiral I was on. I even went out and paid for a gravesite. The money I was planning to spend on a burial plan I spent on my first order of NANO SOMA.

My gratitude is deep and vast to Dr. Raghu and Dr. Richard Presser. Also, Tank and UNN for being the first to tell me about this in their reports.

KT Wilson USA July 2021.

Dear Dr. Presser,

I'm on day 11 of the NANO SOMA and feel so blessed to have found it. I didn't think I had an experience yet of it until yesterday. I have had difficulty walking for many years because of my back issues with 3 herniated discs, sciatic flareups, etc. I avoid having to go to certain stores as I'm worn out and in so much pain by the time manage to get back to the car. Yesterday I decided to get some errands done anyway. I got to the store and latched on to a cart for extra support and away I went. I managed to get all around the store and was surprised by the time I got to the cashier, I noticed how strong and pain-free I felt! Pain-Free...I never feel PAIN-FREE! Granted, I'm stiff as I don't get a movement except around the house. I was all smiles!!!! I teared up in the car at the revelation that it was the NANO SOMA ALREADY! I'm so grateful!!!! I didn't expect to feel this so quickly! I have another revelation to tell as well. I have had chronic headaches and migraines a few times a week. It has been diagnosed as caused by the occipital nerve on the back of the left side of my head that is always inflamed. Normally, around 8 pm I dose myself with about 750-1000 mg. of Aspirin to keep me from waking up in the middle of the night with a horrible headache. Last night at that time I was preparing to take the aspirin and I felt the nerve which is usually so tender and sensitive.... was shocked that it wasn't that way. I thought I'd take the chance of not taking the aspirin and just going to bed without and see how the night went. I didn't get a headache at all....even in the morning! This is a miracle for me and I haven't gotten a headache today either! That nerve was calm when I woke up and all day today! THE NANO SOMA is at work on my nerves in my back and my head!!! THIS IS A MIRACLE!!!!!!

I watch all your interviews a couple of times because I get little nuggets that I missed the first time I listened. I have four friends who have recently ordered. I'm trying to memorize the scientific jargon to express it clearly to others.

THANK YOU, THANK YOU, THANK YOU!

And this is just the beginning!! Btw, I'm 79 years old and will be getting younger! P.S. I don't think it has a taste at all!

Joyce Farinas. Palm Desert, Ca. 13 July 2021

Hello Dr. Presser,

Thank you for your last 2 emails and info on the NANO SOMA being back in stock... I meant to respond to you sooner and got focused in other directions. I love the product and am sparingly nursing my last bottle as there is not much left. I have some money together now to order 3 more bottles! I would like to report that an enlargement of the right lobe of my thyroid (Goitre) has shrunk significantly, and soon, I expect it will be completely gone

I always enjoy your presence on Jeffrey Daugherty's show, and I look forward to getting the DPE 100!!!

Thank you for bringing us this great product.

Sincerely, Corinne Shea, VA, USA. 21 July 2021

Hello Richard,

As promised, I wanted to update you some more on NANO SOMA, as I mentioned that I was going to wait

for a few more days to see what else it would do for me. Well, yesterday was day 14 since I started using NANO SOMA. The entire bottle is finished, and I am excited to give you more feedback!

Since July 2020, I was dealing with allergy issues due to dust mites. My allergies were seriously acting up, so I was not able to eat and drink as often as I should since the beginning of the year. Currently, I do not take any form of medication. The puffers/inhalers my doctor prescribed in October 2020 were not helpful after using them for a short while. My energy was low, but I got some relief from other forms of natural remedies that I took.

I also had to lie down often due to weakness in my body and pains in my joints. Then, in the early part of May 2021, a friend and mentor of mine mentioned NANO SOMA and what it did and is doing

- 57 -

For more information on the MagicDichol Family of Products, go to

www.magicdichol.info.

10 November 2023

for others he recommended it to. Now, after taking NANO SOMA, my joints are less painful and more

flexible. I am taking longer walks and my appetite increased. I also noticed that I did not get a lot of menstrual pains during this month's cycle. This is the very first time I experienced such tremendous relief, as I have always suffered from serious discomfort, cramps, and heavy pains during those delicate times. This is a miracle for me!!! I am very, very happy!!!

Also, one of my older sons experienced mental clarity and focus. The other one experienced cognitive improvement, alertness, mental clarity, more energy, and an increase in his appetite. My youngest son, whom I gave 2 sprays per day, experienced mental clarity as well. Isn't that awesome? I am fully on board and have already fallen in love with NANO SOMA! God bless you and Raghu always and forever for doing such great work! I am grateful!!

Regards, Sandria Gillespie. USA 20 July 2021

NANO SOMA results for me Day 7.

I have had to limit my activities due to my back which I mentioned to you previously. I really couldn't walk more than half a block without sitting down. In the last 3 days, I have walked distances of 15 blocks!

I enjoyed taking 30% less pain medicine.

I hadn't slept more than 2 to 4 hours at a time for just about 2 years, and in the last 2 days, I have slept 7 hrs and 7.5 hrs.

I have a far clearer mind consistently.

I have double the energy throughout the day without a low point in mid-afternoon which was customary for me... I would grind through it. I haven't had that for 3 days now.

My dog continues to do extremely well.

After a time, I will have a biopsy done again to determine whether my lichen plans and lichen sclerosis will be gone.

Thanks, Anahata Graceland, USA. 17 July 2021

Thank you so much, I love NANO SOMA. My teenage son has bad acne, and with one bottle which he isn't even done with, his face has almost completely healed. He looks so good. He needs a heart valve, so I hope this helps that. He is very healthy despite this and has plenty of energy. I love how I feel all over.

Beverley Young. 10 July 2021

Hi everyone, I want to share my experience with NANO SOMA.

- 58 -

For more information on the MagicDichol Family of Products, go to

www.magicdichol.info.

10 November 2023

I have been taking this for a month now, and for me, it has been a painful process. I was born with what the doctors call Eczema, and have been on prescription Cortisol Cream since a child (I am 35 now). I have also been overprescribed antibiotics, and due to a lowered immune system, I have been very susceptible to viral infections.

Since taking NANO SOMA, it has brought forward viruses that I had no idea that I had, the worst of which presented on my face. This was extremely painful whilst the virus was being eradicated by the NANO SOMA. However, once it comes out it is gone forever. I just want to warn you that unless you are in great health and have been all your life, it is highly likely that you will have a transition period where there will be some pain as the damaged cells are identified and pushed to the surface to be shed.

For me this is invaluable! A cure for everything! It is worth the pain. This is a picture of my face while the virus was being shed and healing.

Jen. July 15, 2021

Richard,

This is an update on my NANO SOMA use for the past months. I have had a Johnson and Johnson shot adverse reaction 5 days post-injection, with a full-body rash that sent me to the ER /hospital for two days, with the only conclusion that it was the shot. I had put NANO SOMA directly onto the shot site and 5 squirts right after getting the shot. I do believe it stopped the reaction from being worse (somewhat itchy all over). I did report it to the Federal VAERS because I don't believe that the hospital would report it.

My asthma is still reduced as reported previously, although I do get some symptoms at times (I live with a smoker). Applying NANO SOMA to some skin tags cleared them up right away, although some other ones popped up that I am now treating with direct sprays.

My dog is doing well with her peripheral neuropathy and can walk longer distances now. All four legs are stronger, and she is happier and more playful. She continues to get 5 sprays a day on her food of NANO SOMA and will continue. I highly recommend this for animals for all kinds of problems. I am starting the other older (10 yo) Rottweiler on it for his arthritis.

Lynn (Buffalo, NY). June 25, 2021

Nano Puppy Miracle

After exposure to a Covid vaccinated person this lesion/ pustule appears. It got worse over the next two days with dark black blood bruising under the skin around the blister and dark red blood inside raised portion, then full body tremors began lasting about two days.

After a week of spraying, nano tremors disappeared, the lesion fully healed, and today no evidence of illness.

The entire underbelly looks completely normal and behavior and motor skills are normal for 6 week old puppy.

moment such that my healing was elevated to a level where I could hear the Ancients' whispers for this little creature to also have access to a life of wholeness and health.

How glorious when we allow this 'Magic' to work through us.

Kate Aiello April 2020

Dr. Presser,

I wanted to share with you: I had a litter of puppies born 4-3-21 and one was born hypoglycaemic - blood-red paws, face, etc.

Instead of using high fructose corn syrup to bring the glucose levels up, I felt called upon to administer NANO SOMA to the newborn. I asked Spirit how much and it guided me to .075 mL- basically a teeny drop. I put it on the puppy's lips and watched in awe and reverence as, before my very eyes, the pigment began to fill in the bloodred places.

10 November 2023

The puppy is developing normally with proper weight gain, nursing beautifully, and seems content. He looks just like his 9 siblings now, 6 days later.

Photos before and after NANO SOMA

WOUND HEALING

On January 4th, my 94-year-old mother was admitted to the hospital with a gash in her leg that went from her knee to her ankle. It was a horrendous wound and she was flown to Adelaide for major surgery and skin grafts.

Once home again, the wound that had the grafts healed reasonably well for someone of her age; however, the area on her thigh where the grafts were taken from remained slow to heal. Four months later the wound had not healed at all. As she was in care, the wound had been kept bandaged, so I was not able to see it. Not being able to enter the facility due to the COVID restrictions had hindered me from keeping track of her progress. On May 2nd, I brought her home from the Nursing Home and decided to check out under the bandage. This is what I discovered. I was horrified! There was pus oozing from the wound and my first thoughts were "gangrene!"

I immediately reached for the NANO SOMA and sprayed 3-4 sprays directly on the wound and rebandaged it before returning her to the Nursing Home. I had been attending daily and spraying 5 sprays of NANO SOMA in her mouth for the previous 6 days. I made a plan to speak with the Dr. urgently and work out what could be done for her wound. Today, I brought her home again and removed the bandage and could not believe my eyes.

Just 48 hours later, with nothing other than 3-4 sprays on NANO SOMA and reapplying the bandage, this is what I discovered. Truly incredible change. Bear in mind it is now four months since she had the surgery with no sign of healing.

I CANNOT WAIT TO SEE WHAT A DIFFERENCE THERE WILL BE IN ONE OR TWO WEEKS TIME! ---

Heather Wardale April 2021

May 13th - 12 days later - After four months of not even looking like healing! Not to mention how painful it was!

As the wound is from skin grafts the scarring may stay - however what we have experienced so far with the NANO SOMA one can not be sure if the scarring will remain!

Something else of interest is that she has had two very nasty falls in the past week. Normally she would be "black and blue" with bruises from a fall. However, this time practically no bruising! Can you believe that? I can hardly! She has one dark bruise on her shin area that is all!

Heather Wardale 13 May 2021

I received mine yesterday. My spray chamber did not work. I had a syringe because I'm an insulin-dependent diabetic since 6y/o... I'm half a century now. My sugars have been out of control forever...my A1c is 12 (normal is 6-8). I lost my leg due to slow healing.

My blood sugar was 545 (very high) last night. I used the syringe to aspirate 1ml (equals 5 sprays) of the NANO SOMA... put it under my tongue (quickest way to get into my body) and slept. This morning I checked my sugar.

It was 99. (Normal range:

80-120). I feel great. I will keep track of my blood sugars to make sure I'm on right track. I've been trusting Creator God for healing for at least half my life. This is the door God opened for me. I'm walking through it. This is my testimony so far.

10 November 2023

June Glover, May 2021

Dear Richard,

My writing to you today is a testimonial of the truly amazing results that NANO SOMA produces. I am not going to repeat what others have said about it.

I shared with you and Raghu my test data from my body scan and it shows amazing health improvements. What it cannot show is the other changes occurring to the human body. As you are aware from a past letter to you, I suffered lifelong idiopathic scoliosis to my lumbar spine. The curve was at 40 degrees in the lumbar region. For those who don't know of the disease, it can be debilitating, putting it mildly. One of the conditions for the cause is a muscular imbalance in either lower region of the back and buttocks.

The brain cannot send signals for the muscles to grow and stabilize the cavity. In my situation, from childhood, I suffered from the get-go. I will leave out the details. You have the full story.

Last year, I used my VPN to research childhood scoliosis and muscular disease and I found out from CDC reports released outside the US that the POLIO VIRUS was induced in the vaccine! It is not a natural disease. So, many children were vaccinated and many got sick or died as a result of the jab. Then I pieced it all together. I suffered a mild form of POLIO - not enough to incapacitate me, but enough to cause me much suffering.

My right-side muscle systems were deformed and underdeveloped; so, as I grew older the condition accelerated.

As a result of my decision to follow my spiritual path and study REIKI and QUANTUM TOUCH, I began to understand and keep myself active as much as possible. Last summer, after 6 months with NANO SOMA, I began to lose weight and become fitter. At 70 years young, I had knee issues and with Richard's help, those conditions were cured.

In September, I was fit enough, so we decided to sell our big home and downsize. In November, we moved into a beach house rented for the winter on the ocean in upper New England. Living on the ocean, allows me to enjoy the real world with no demands. In January 2021, I began to notice my lower muscles on my right side are growing to normal size, and my balance is normal and I have no back pain.

I can now flex my lower muscles independently, which was impossible before. NANO SOMA is flushing out all the damage done over many years.

Mind you, I have refused any vaccination since I was 18 (I never trusted the system). So, in closing, this is starting year two on NANO SOMA and we will see what comes of things.
Richard, I will say it again. You and NANO SOMA saved my life.

Warm Regards, Charlie Zevitas February 2021

Richard,

Rarely, and I speak as someone who has passionately sought out the truth about nutrition and diet for over 45 years, do you encounter a novel yet ubiquitous element, properly prepared and packaged for the average person: NANO SOMA.

My experience with this product is so profound that words will only approach my experience. After using for a couple of days, consuming five sprays about five times per day, I noticed that a ten-year-old injury was suddenly gone. This injury to my left thumbnail separated the nail from the bed and was unsightly to me. I noticed it every day. I had tried everything to remedy this injury and nothing worked, for ten years. I can only attribute it to stimulation of my endogenous stem cell production. My clarity and ability to think through complicated issues as well as my focus was also enhanced past what I thought was possible and it lasts all day; no slump. Coffee will not achieve these levels of focus or clarity.

And after taking it for about 2 months, my clarity has improved even more.

Another issue for me was what appeared as a dark spot on my right leg, small at first 30 or 40 years ago, it grew from about 1/8th inch in diameter to about 1.5 inches in diameter. This spot, whatever the cause, only seemed to grow regardless of what I treated it with. Now it is barely visible and almost gone after a month. My friends who've used NANO SOMA at my insistence have also found remarkable and even unheard-of results as their bodies have suddenly switched on, from diabetes to thyroid issues resolving themselves within days. My understanding of health and the body tells me the product is not a nutrient or doing anything. It's your body. Nano Soma is merely a messenger, like a ringing bell, alerting the almost perfect human system to turn on and off when needed. We possess all of the necessary ingredients to have remarkable health; however, life, environment, and a myriad of other items have negatively influenced our systems. NANO SOMA signals the system to turn on and that's amazing. Profound thanks to you and Raghu for your dedication and for bringing this product to market. It's a gift for all mankind and no wonder a shrine was constructed 5,600 years ago to its origin. We've forgotten many things in history, even as our bodies have forgotten, and now NANO SOMA is our wake-up call to health and vitality.

Regards, David G, May 2021

Good morning from this side of the world!

I am absolutely loving this product! I have more energy and focus and have only used it for 3 or 4 weeks! The results are noticeable, and I can sense my demeanour shifting the moment I spray it into my mouth! I have 3 bottles, but will be sure to replenish this when I am getting low! Be well!

Julie Boehr March 2021

Hello Richard,

I live in a small community, and I believe most in this community and even most of my friends think of me as a conspiracy theorist and do not believe anything that I believe. I wore a mask twice to see my premature granddaughter in the hospital. She was born on March 21st. She is tiny, 5 pounds 3 oz today and, doing fine. Luckily, I have a daughter who watched "Shot in the Dark" a vaccine documentary and did not vaccinate her son nor is she vaccinating this tiny one. That was my birthday present to me if she would watch it and fortunately, she did. It horrified her to see infants doing well and getting the vaccines and becoming gurgling and unresponsive babies.

Most people see me as that lady who will not conform to wearing a mask and is harming them. When people wear masks, it makes it quite easy to just pass people by as we cannot see who they are anyway. Conversations have disappeared.

So, for me to tell anyone about NANO SOMA would not be very productive. I have lost weight using it and I was 135 and now 120. I am more agile and I am soon to be 70. I can get up off the floor, now, with ease. People say I am looking younger. I have always been in pretty good health and have not been on any medication because I think it is all crap and is only harmful.

So, I will continue to use it as I believe it is helping me stay younger.

The consciousness we are inside of is a challenge for all of us that are awake to it. But it will change, and NANO SOMA will play its part, IMO.

Cheers Donna, April 2021

Good day,

I just wanted to share with you: I learned about NANO SOMA from Jeff Daugherty and I ordered a bottle. Then, a few days later I ordered 6 more to give to family members and a friend whose son is extremely autistic. The first day taking NANO SOMA, I noticed that I had so much energy like when I was in my early 20's, again. I have now been taking it for a month and I cannot be more pleased with

this product and I tell everyone that I can about it. It is a miracle product. I would love a chance to be an affiliate for your product.

Stephanie April 2021

On a small front, I put 2 sprays of NANO SOMA into my largish bird bath, along with the usual CO2 (plasma water from the GANS of CO2), and the water has remained utterly clear and pure for over a week, despite birds using it. It normally starts to ferment by the end of the day if it is warm weather. The bowl itself has not gathered any green slime, etc. Small, practical...but still proves the product, doesn't it?

Warm regards, Susan

Richard,

I have been taking NANO SOMA for about three months, now, and have just started my Rottweiler on it. My results have been varied but I have noticed a decrease in my asthma reactions although I do live with a smoker who smokes in the house. I still react to the smoke but have had less general coughing and need for my rescue inhaler for most of my asthma symptoms otherwise, which is great! More recently with spring allergy season, I have noticed a greatly reduced reaction to my usual allergens, especially the huge

Magnolia tree just outside our front door! Along with using colloidal silver, I am in the process of curing a UTI over the past week, which I attribute to both the NANO SOMA and the silver without antibiotics, yeah!!

My dog has had for over the past year a progressive peripheral neuropathy, with weakness occurring in all four legs. She is only 3 years old. She has gone through extensive joint and blood testing with no definitive results.

My diagnosis is neuropathy because I have seen it in adults as an Occupational Therapist for over 42 years (now retired). I put her on the NANO SOMA, 5 squirts once a day for the past 3 weeks and already she is walking up on her feet and not her "wrists" and wanting to walk for longer distances. Her personality has brightened, and she is more herself, playful and joyful! I can't wait to see her get better! So, for those out there wondering if animals can use NANO SOMA; Yes, they can!! My cat has glaucoma, which has turned for the worse, so I am going to try it with him. Just have to figure out how to get it into him (LOL). I will keep you updated on all our progress.

Lynn April 2021

Hello Richard,

YES!!! I am having great results with the NANO SOMA and have been taking it now for 10 weeks.

During the first week, I had a few days of sore eyes, dizziness, earache, very tired, dragging my body around, and the NANO SOMA tasting like soap! A week later, the soap taste is almost like water, my energy levels are very high and continue to be so, and I can do whatever/whenever I want... Such a Blessing! Also, an old arm soreness when raised above the shoulder reappeared about week 8. I applied NANO SOMA to the skin in that area 2x for one day... it went away but came back a week later, so I put on more all around the arm and shoulder 3x/day for 3 days and it suddenly disappeared.

Also, I need less sleep. Also, my food preferences have changed. It was noticeable when I installed my DPE100 but was much more pronounced since starting the NANO SOMA. I used to eat a lot of meat while on the Paleo diet a few years ago and the last couple of years, I've wanted a little less but since the NANO SOMA, I detest meat - it makes me cringe! The same goes for all cravings, almost addictions to dairy, grains, processed foods, highly sweet things, alcohol... also for going on the internet/social media...It has all fallen away...

I feel like there is now a definite choice and I at long last feel like I AM FREE! All I want to eat now is wonderful, delectable healthy fresh fruit and vegetables and manage my time in a much more productive way. It helps to manage sleepiness while traveling and makes a good deodorant, too!

I am so thankful for NANO SOMA and all the Light Beings of the Most- High who enabled this to come to Earth at this time for the Highest Good of All.

And thank you so much, Richard, for bringing these things to our part of the world.
Very much appreciated.

Love, Sunshine, Rainbows, and Hugs

Theresa Beecroft

Richard,

This product is amazing. My hair is growing and darker, my vision has changed from 20/30 to 20/20, I feel better, more energetic, my sleep is excellent. I am on my 2nd bottle. I do 3 sprays in the morning and 2 in the evening and will keep doing this till my last day on this planet. Thank you for introducing me to this product, you are a godsend. Please stay safe.

Walt Bruyn

Hi Richard,

It truly is a miracle; I am ready to order 3 more bottles next week. The results are amazing. I wish I knew about this 10 years ago. I am 73 and people say I look like I am in my late 50s/early 60s. I feel a lot better, have more energy, no COVID-19 and I sleep well.

Again, thank you for recommending this product. Please stay safe.

Walt Bruyn, January 2021

I sure am feeling so good with NANO SOMA, I can just about do everything but walk; thank you, Richard.

I'm trying to figure how to get more. It is not a drug but it is my lifeline.

I don't hurt much anymore; missing having both legs.

Barry, April 2021

Dear Richard,

My mom is 85 years old; she gets terrible bruises from the smallest thing. Well, well, she was not even on NANO SOMA for a week when she knocked her hand against a chair and as usual, we were expecting a HUGE nasty bruise. It did not happen!! She got a tiny bruise and when I sprayed a little NANO SOMA on it the next day... (she was taking it orally, too), it started to go away!!!

Do you know what kind of miracle this is? It normally takes a bruise on my mom MONTHS to disappear. I can't wait until the cream comes out, too. Also, could NANO SOMA possibly firm the skin? Especially when applied topically? After this, I have high hopes. WOW!! We are wondering what new miracles will happen next.

THANK YOU

Carla, April 2021

Dr. Presser,

I'm not sure where to even begin. I began to feel things breaking down in my body almost a year ago - I won't bore anyone with the myriad of details - but I've been keenly aware that my biggest issues the last few months have been liver, gall bladder, stomach, and intestine/colon issues. More than that - I began noticing how sore and stiff I was getting out of bed in the mornings in addition to all the liver/gut issues - more than likely a lymph system that was pure sludge...

For over a year, on a scale of 1 to 10, I have lived with a pain level of 5 to 8... at times going from 8 to 10

- finding some relief from my Acupuncturist and my Chiropractor, who does more energy work than "cracking bones." But never being 100% pain-free. I couldn't make it through the day without a nap from an hour to 2 hours... sometimes needing to sleep all day... brain fog - a depression that I was on a downhill slide that I wouldn't be able to come back from...

I first became aware of NANO SOMA a few months ago concerning COVID-19 - and interested in the results - but as I began to read the multitude of testimonials - and what it was helping people for - you had another person say "it was literally calling out to me" - and it did... I too have an extreme and highly developed "intuition" - my body talks to me all the time... and it seemed to be screaming for this.

I wasn't prepared to be writing to you so soon - but had to. My product arrived yesterday - and having read the protocol - I knew I would "listen to my body" - I also read on the protocol about the time that you might go through a healing crisis - having been through many of those in my life - I knew I had to be careful - I have THE most important appointment in my life coming up that will be requiring a sharp mind and a pain-free body as possible - not knowing the exact day of the appointment - but knowing it is soon - I had to go by instinct in my dosages to ensure I would not be in the middle of a healing crisis at the time I was called for this appointment...

Knowing all that was wrong with my body - I fully prepared to give NANO SOMA a good 30 to 60 days to feel any difference.

Well - I received my product yesterday at 12:30 pm - took my first dose at 12:35 pm - and "intuitively" took another dose before bed. I woke up at 1 am thirsty - got a drink and upon returning to bed - laid there for a moment and realized - upon going to bed my pain level exceeded a 15 - (I was in crisis) but at that moment at 1:00 am - I realized I was literally in NO PAIN - none - got out of bed this morning - with NO PAIN... this was 12 1/2 hours after my first dose! My energy level and mental acuity are off the charts!

I do not doubt that the other major issues will begin to resolve themselves sooner than later. My Acupuncturist has always told me that she's never had a patient whose body knew what it needed, wanted, and responded to so clearly and quickly - and I got to experience that again - first hand with NANO SOMA... in LESS than 13 hours...

Thank you seems so inadequate - but thank you... rest assured I will keep you posted on my progress...

Susann Turnbull, April 2021

Hello Richard,

I called a lot of friends and told them about my ankle. They all ordered NANO SOMA.

Three ordered 12 bottles, the others ordered 5 bottles.

I originally ordered 5 bottles and then, after my extremely painful ankle became painfree, just less than an hour after 5 sprays of NANO SOMA... I ordered 12 bottles more. I don't ever want to be without.

Many blessings, Jane R - in Phoenix, Arizona February 2021

Dear Richard:

I have not been using the product for long. I'll just tell you small surprises. My arthritis pain on my third finger right hand is not painful anymore, just a bit stiff. My stuffed-up sinuses have improved and the pain across my forehead is gone. Also, on Sunday I stepped right out of the bath instead of having to haul myself out by using a bar attached to the bath.

Pretty good eh! I am now taking 3 sprays in the morning and 2 in the evening. This is the best I can do for now.

Blessings,

Kathleen February 2021

I have had psoriasis, eczema, and seborrhoea all my life. I have improved my skin a lot over the years because of the work I do. However, there have been a couple of large spots on my scalp that have been hard to shift. I started spraying the NANO SOMA on them about 6 weeks ago, daily. The improvement is very encouraging. One spot has almost gone and the other is reducing. I hope they will both disappear very soon. It's a shame I don't have before and after pictures, but I didn't think to take them. Of course, I will re-order when I need to but, now, I still have 2 bottles left. I also believe you can cut out many other forms of medication if you take the NANO SOMA, but this is very particular to the individual.

Blessings,

Barb February 2021

I have already reordered once and am getting ready to do so again quite soon. NANO SOMA is amazing stuff! I had Morgellons for around 3 years, a year and a half before I figured out what it was. It broke 2 of my teeth and ravaged my hair. The other day, a friend of mine commented that my hair is starting to look more like it used to. My sleep is better, and I generally have more energy. I notice NANO SOMA becoming less bitter. I also have a growth or tumor on my hand. It's big

10 November 2023

and people have been bugging me to go to the doctor and have it removed. I don't think that's a good idea. I've been spraying it with NANO SOMA and it's starting to come apart. Pieces of it are coming off. I'd love to have the cream or gel for it but spraying works, too.

Lorie January 2021

Hi Richard

The function of my Islets of Langerhans is now 97% today! (This illustrates Deb's recovery from Type I diabetes.) I'm almost there!

I have to say that while the process up until 70% was easy and quite joyful, it has since been extremely tough and there were times when momentarily I fleetingly felt like it would be easier to be an insulin-dependent diabetic.

It has required an intense reality check on this life and past lives. Life itself and my outward circumstances have construed in the direction of my healing. I am working with the people that I have karma with. I have had to make some very difficult life decisions about personal boundaries and where I draw the line especially with being treated disrespectfully by people.

I could not have achieved this so rapidly without the friendship and support of my friend and partner Greg, who is also a wizard at clearing psycho-spiritual shadow, spanning this and many past lives.

I am blessed to have NANO SOMA and the health benefits, which have improved my quality of life immensely. I am taking negligible amounts of insulin, now. Soon it will be none as my body continues to adapt to a new state of being. This process so far has been about three and a half months from a pitiful 12% function to now almost there at 97%.

Thank you, Richard

I will stay in touch

So grateful to Raghu

Best Wishes - Deb Walsh May 2020

A different Deb...

Dearest Richard,

I feel so good. I got off of one of my blood pressure pills which was twice a day. I've noticed my hair issue seems to be reversing, also, which is wonderful coz I've used colouring for over 30 yrs. I have more energy, the palpitations are pretty much gone, except now and then. And I am getting younger! Thank you so much Richard for introducing me to NANOSOMA!!! Love, Light & Many Blessings

10 November 2023

Deb July 2020

Dear Richard,

My husband was cleaning the soffits of our house with a bleach formula. While on a ladder and looking up with his hat and goggles on, a drop found its way into his eye. It was very painful. After rinsing his eye for at least 15 minutes, I had him spray some NANO SOMA into his eye. It burned like crazy! He continued spraying NANO SOMA under his tongue for 3 days. By day 5, the redness and pain went away and his vision was back. He is now a believer!

Thanks much, Richard and Raghu also for producing such a wonderful product.

Love to you both,

Nancy G. January 2021

Dear Richard,

I have been using NANO SOMA since last Fall on my ears and eyes. I had pain in my ears and it's now gone, though I still have hearing loss it is better. My eyes had lots of itching and redness. Both the itching and redness are gone. Thank you, Richard, for NANO SOMA. In love and light, Alvin

February 2021

Absolutely thrilled. My results are mind-blowing, and I am only heading into week 3 of use. I purchased an entire year's worth of product. I understand not only the science but the spirituality behind it all. This is a blessing from another dimension. I can't wait to share.

Otherwise, speechless.

Update - I continue to be impressed with my healing response following the dosing protocol provided and in another 5 days will have a month's use in my body. Feels like it's been much longer and almost can't remember what I felt like without this magic.

Gratefully, Kate. April 2021

I'm in my third week, or is it the fourth, of my first bottle. I have three new bottles to go (until I purchase again). The cancer on my face is almost all miraculously imperceptible. My mental clarity is improving and I feel healthier overall. None of this surprises me. I will be surprised if I don't feel even better in a few more weeks. I feel I

10 November 2023

“salt” or “seed” my being through the sprays in my mouth. I don’t know where I most need it, nor what it is most helping just yet. The great thing is that It knows and I believe in It (Him if you will). So, I expect to be in touch.

Blessings,
Larry, March 2021

I've been through a lot of stuff in my life. I'm a Retired Navy Amputee and it's just that I am starting to get a little more done. I can lift both arms above my head (I have not been able to raise my arms for about 20 years or so) and I feel more alert. It does help with what amputees call phantom pain; body functions are getting better. Overall, I feel like I am more energetic. Works like crazy. Sold me, buddy.

Thank you very much... Barry April 2021

Hi Richard,

I have just completed the start-up regime and will continue to monitor progress. I have to say that most of my joints have improved. The worst ones are my knees and I'm still struggling with them... energy levels are greatly improved. On another level, I feel more "present".

I had a bone density scan a month ago and the results were better than the one I had in 2008!!! I can only attribute this to NANO SOMA. Considering rheumatoid arthritis has been with me for over 40 years, think I am doing well. Not sure how long I have been taking it. Your records will tell. I would like to know as well (December 2019). I've been enjoying your info on the Planet situation and keeping a close eye on that constantly.

Kindest Regards

Carol James, February 2021

Hello Richard!

Thank you for your email with the new testimonials. It reminded me that I should be sore today because I went cross-country skiing two days ago and I just realized I'm not even sore! I'm thinking the NANO SOMA may have something to do with it! What a pleasant surprise! I expected to be quite sore because this is a new activity for this 65year-young body and I skied probably two or three

miles. I couldn't be happier to have accomplished this type of recovery when I was certain I had overdone it.

Best Regards,

Debbie, January 2021

Dear Richard,

I love the product. It has connected with me in an unusual way. From the beginning, I felt a calling to take it, and I mean it. I felt "It" was asking me to use it. This type of connection has never happened before with any other product I have used. It is as if it is communicating with me at my cellular level. I feel it is protecting me from the virus (COVID-19). My question is on pricing and the reason I am looking into the price is that I see myself using it for a long time so the price makes a difference. Right now, I am ordering the 3-bottle bundle.

Maria, January 2021

With time, we expect the pricing to come down, although probably not in the next 12 months.

Richard,

Like everyone else, I am always skeptical until proven otherwise. Maybe it's my Missouri roots. The ShowMe State! Anyway, I purchased a 3-pack a month ago and received it after the biggest blizzard melted since we've been in TN. We got a culmination of 10". It delayed delivery for about a week. I have been very healthy all my 61 years. Since we moved to Tennessee some 10-11 years ago, I've done hundreds and hundreds of hours of research on health, anatomy, detoxing bodily organs, states of mind, past lives, emotion, etc. Anything that has anything to do with health and why the "powers that were" continue to suppress natural remedies. I've personally found over 50 natural cures to cancer alone! Some of the people that brought this information forth have been shut down, arrested, or worse!

I was willing to try NANO SOMA because of the Masters of Vibration group (connected to my spiritual work - Richard) and the testimonials. I've been doing the 5 sprays under the tongue every morning for two weeks, now.

What I discovered was my right shoulder, which I use at great intensity for work - I'm in the lighting business, so my arms are above my head, changing out lamps and ballasts and rewiring fixtures daily. We also play pickleball, which is similar to tennis, but on a smaller court, and also play golf. These were causing pain in my right shoulder for which I was using oils to get temporary relief. After only 10 days of using NANO SOMA, my shoulder pain is completely healed! Who knew?

10 November 2023

What I found interesting as well was after about a week, the outer back portion of my left foot started having slight pains. Almost like a soreness. I believe that any toxins/acids that remained went to that area, sort of like how gout travels to the big toe. Well, after a few days of that it has now disappeared!

So, I am very excited to tell family and friends about this Magic Elixir. Thanks, Richard. I'm also glad you don't have a storefront so that the oppressors cannot shut you down.

Rick C. Shultz, March 2021

Yes, Richard,

About 10 years ago I fell and jammed my thumbnail into the floor to break my fall. The nail separated from the nail bed and while not terribly unsightly, always stood out as I looked at my fingernail. The nail bed was exposed about 1/4 inch past the normal and never seemed to get any better. Within about 3-4 days, the nail bed regrew to its original position, now matching the other thumb. I was amazed and began checking other parts of my body and, sure enough, other things were happening as well. My skin tags, not that many but always there, began to disappear.

My alertness, while hitting the top end of the scales for a while, is now more pronounced and my clarity is off the charts.

I'm not the normal case as I enjoy amazing health with no meds at the ripe age of 67, soon 68. I eat about a 95% carnivore diet with a very low carb intake. I've lost about 45 pounds over the past 14 months. Prior, I had a low carb, high fat diet and never thought the vegetables were my nemesis; however, they were. I work about 12 hours a day and sometimes more and would be considered an outlier for sure.

I seldom exercise except for my normal routine around the house and around town, walking at a brisk pace. I do stretch regularly, morning and night, which I highly recommend, and for those interested in exercise without risk, get a large rocking chair. It moves the lymphatic fluid without too much effort. You can move to a minitrampoline later.

Also, I believe it has helped my eyes 👁👁 and now I can read as I have never been able to before. I remember taking the Evelyn Woods speed reading course in 1967. Until I took the NANO SOMA, I have been unable to master speed reading as taught. Today I was able to read entire paragraphs as is intended.

The experience was surreal.

10 November 2023

Thanks to you for your courage to come to Jeff's show and Dr. Raghu, especially, and all the team.

Regards, David March 2021

I have been controlling my blood pressure with plasma water from GANS, but then I started getting shortness of breath and chest pains, which bothered me, but not enough to go and see a doctor. After the first bottle of

NANO SOMA, it went away.

Norma also has some issues that we hope she will have good results with.

Thank You, Norma & Bobby, March 2021

Dear Richard,

Here is an example of how fast NANO SOMA can heal a wound. My husband fell on a very abrasive surface and tore his forehead open. We put butterfly bandages on it. The next day he went to the Emergency Room and they remarked that it looked pretty good, considering the circumstances, cleaned it up, took a photo (which I do not have, but my husband saw it and it looked BAD)!

Well, I gave him a bottle of NANO SOMA and this was the result one week later.

He also had an abrasion on his nose that has healed completely in that time. He was perplexed and totally amazed.

He is now a major fan, after dissing it for quite a while.

BIG thanks to you, Richard and Raghu.

10 November 2023

Nancy & Dom G March 2021

Hello Richard,

I am writing to share my experience with NANO SOMA. I started using it about 3 bottles or 3 months ago. Now, all my life I have had food allergies and was always looking for relief without the medicines for asthma and allergies. When COVID-19 started about a year ago, I knew things like garlic and onions would be worth their weight in gold for prevention. I always wanted to use them, but I was allergic to them, along with wheat and corn. During this holiday season, I found myself going into wheat and corn free foods, then I tried garlic and onions and no negative effects have been observed.

I was just curious about other people's experiences with NANO SOMA and have they ever experienced this positive effect. Of course, I feel my body is stronger when I exercise and breathe, so I can vouch for that, but I was wondering about the diminished allergies towards foods and the environment after only 3 months of using NANO SOMA. I really appreciated the lower price of the product when a store was set up in the United States. I can definitely feel an overall positive effect on my entire system, and I was wondering if others are feeling the same things.

Thanks, Richard, for the good service and excellent product.

Gregory January 2021

Gregory's experience is exactly what has been experienced by others. When using NANO SOMA, the body corrects the causes of allergic reactions. It appears to trigger a reset of our bodies back to their original blueprint.

Hi Richard,

I started with 5 sprays once a day for the first 2 days. I subsequently increased it to twice daily the last 4 days.

I have noticed a drastic reduction of phlegm in my throat, and I feel like it (the phlegm) will be gone by the time I'm through with 3 bottles (we'll see).

Also, my eyesight has improved a lot. I can now read small print without needing to put on my reading glasses. Amazing!

Thank you for bringing this to the rest of the world. I shall keep you posted on the improvements in my body as the days go by. Thanks, once again. Regards, William E. February 2021

Hello Richard,

My friend, Jackie, in Scottsdale, AZ., ordered 24 bottles, it arrived; she is very happy with the product. Jackie is slowly losing her eyesight, (along with a lot of other problems). She couldn't see well enough to place her order, so her daughter in Michigan purchased for her.

Jackie's circulation is very poor, her feet are always very cold. (age 80) Guess what? In just 3 days, her feet are as warm as toast!

My friend Patricia said you helped her place her order of 3, thank you. I bought 5 originally; I quickly ordered 12 when my ankle became pain-free, in just a few minutes after the hour! I had to have more!

My friend Sharon (living just north of San Francisco) ordered 12, as soon as she got my phone call. She could hardly raise her arm, due to an auto crash in "December". Now, besides being painfree, she has full use of her arm. Great, isn't it? We both placed our orders for 12, the same day; I think it was February

12th.

I recommended Sonia in Sedona... thank you for helping her.

I express mailed a bottle to my brother in Baltimore, 2 weeks ago. (not there yet-just snow) I intend to send him 3 bottles if he likes the bottle I sent to him from my home in Phoenix. I'll probably do that tomorrow. Of course, he will like it!

That is all for now. Tomorrow, I will call my Vegas friends. Thank you, Richard, for helping them. Sent to you with love and many blessings.

JANE

Jane R Lightner, February 2021

Hello Richard,

I really enjoy and appreciate the NANO SOMA.

I feel that it has made a difference in my body and I also believe the best is yet to come.

Thank you, Nadine, February 2021

Hi Richard

I'm happy to report the skin cancers on my head have just about gone. One lot on my forehead has gone completely, the other larger one has a small crust and should disappear in a few more days. Still

- 81 -

feel wobbly in the head and unsteady on my feet, so will persevere with the spray. My cat seems to have improved his wobbly walk. I think he's in sympathy with me.

Carol February 2021

Thank you so MUCH Richard for the info on spraying your body and face. You are so right!!! I don't know why I didn't think of that. I've also been doing the same on skin tags I developed due to the medication. Guess what, they are disappearing!!! OMG. And I've also used it on my forehead where I have kind of like a pimple, but they've been there for years. They are disappearing, also. And I've been doing this for almost a week. WOW!!!

Thank you, again. Take good care and a Very Happy Holiday to YOU and your family and friends.

Love, Light & Many Blessings

Deb December 2020

Dottie has had chest problems since she was a child, tightness in the chest which restricted her breathing, and a chronic cough (which was diagnosed as COPD about 10 years ago). After 3 weeks of using Nano Soma spray, the tightness in her chest has been dramatically reduced and her cough is less frequent. She also experiences arrhythmias and has leukemia (which she manages with supplements) and is looking forward to relief from those challenges as well.

We are both avid health enthusiasts and follow anti-aging strategies. We are very interested in seeing results re: our telomere length. I am 74 and Dottie is 72. On 8/27/20 I had a tooth pulled because it had had a root canal procedure about 20 years ago which became infected. The infected cavitation was cleaned out, sterilized, and sewn up plus an implant post was inserted. So, each day when I sprayed the Nano Soma sublingually, I directed one of the sprays right on that area.

I had a follow-up visit with my dentist 6 days later and as soon as he and his assistant looked in my mouth, they both exclaimed, "Wow! It looks like you had the surgery 3-4 weeks ago! It looks great!

Thank you, NANO SOMA!!

Keep up the good work!!!

Blessings and appreciation to you and Raghu. Paul September 21, 2020

Dear Richard, Thank you so much for your store and the alternative ways you offer for healing! I am on my 5th bottle of NANO SOMA. I had a recurrence of my Rheumatoid arthritis in February. (I had originally been healed of it years ago by taking minocycline for over a year.) This time I wasn't getting better on the minocycline after three months and so I added the NANO SOMA. I finally started to recover last month and plan to continue the NANO SOMA going forward.

Thank you.

Sincerely, Sue September 17, 2020

Hi Richard,

Thank you so much for the advice to get NANO SOMA. Both my husband and I have been taking it for several weeks, now. With his Chemo and Radiation, he has skin itching and he has occasional Oesophageal pain. A spray of the NANO SOMA takes the pain away from his Oesophagus and spraying on his skin and gently rubbing it in stops the itching! In addition, he takes two doses a day - one at breakfast and another at dinner time. I think it is working to expedite the removal of his cancer. As time goes on, we shall know more.

One last comment; I feel like I have a connection with the Metadichol (NANO SOMA). It seems to know where I would like it to work and it goes right there. It feels like we are a team working together! It's organic and knowing!

Lynne Pedersen Oriental, NC May 2020
update

My husband has now completed 6 weeks of Chemo and Radiation and has approximately two months to recover before surgery. The doctors could not believe how well he had done. He had no sore esophagus, no difficulty eating, very little nausea (mostly controlled with NANO SOMA and Green Tea). His itching from the radiation was easily controlled with the spray. He takes it 3x a day and I believe it is making a huge difference. Now I think NANO SOMA can really jump into gear and help with his recovery. I just hope that it will become available before the last of our supply is gone. Thank you for all you do! I am continually amazed at all you do!

Many Blessings, Lynne Pedersen
Oriental, NC June 2020

Hi Richard, happy to share with you what I've noticed since starting the Nano Soma at the end of February, '20.

So, it's 6 weeks now that I've been on 5 squirts a day. I have watched as it's systematically gone through my body addressing all the old issues I have acquired in 70+ years! It started with the kidneys (slight pain came up), the stomach (odd pains), all the different bones I've broken (and it's many) - the Nano Soma would go there and I would feel healing energies starting. Currently, it's addressing the broken ribs I've had, on both sides of the body and I can feel things changing there as well. It's been addressing my lung issues (bronchitis, pneumonia, pleurisy, etc.), with a bit of a cough happening, my eyes (short-sighted since 10) and I can feel them changing as well. The main thing is my skin. I've had skin conditions all life, including eczema, psoriasis, seborrhoea, etc. At one point in my 40's, I looked like the elephant man for months on end as my skin erupted so badly with something that was accidentally put on my scalp. I do notice the sunspots on my face changing a bit and it would be awesome if they reduced in size and colour (damage done when I was 11y.o.). I would say minor inflammation in the toes is better as well. So, I'm happy to keep on watching and noticing how things are changing. I've been able to reduce the other natural products I've been using as well. I am not on any medication at all and intend to keep it that way.

Blessings,
Barb

Good morning, Richard,

As you know, I have been using NANO SOMA daily since late 2019. As a then 67yo (now 68), I was and am fortunate to have no serious illnesses or bodily problems, but decided to use it to maintain and even improve my overall health, based on the existing information and testimonials I read.

I did, however, have the beginnings of some varicose veins appearing on my right leg, both above and below the knee. They didn't look very nice, but as they were causing me no pain, I had no plans to visit a vascular surgeon. I just forgot about them.

A week ago, I was drying my leg after a shower and thought I was seeing things. Or not seeing things, more to the point. The protruding veins had gone. I reached for my glasses to doublecheck. And yep. Gone. Just like magic. I now actually enjoy looking at my hairy, 68yo legs (something I'm sure I have all to myself!!)

Thank you, Richard, and thanks to Raghu. John Wysham

In my annual physical including EKG and echocardiogram, everything was within normal limits. I am 91 years old and I doubt that happens by itself. I credit NANO SOMA!!!

Hello Richard,

I would like to let you know that I think that the Nano Soma is a lifesaver for me. I am well past my mid 60's and still work 12-hour days, 14 days in a row.
The amazing part is it's not a problem for me at all and I experience very little fatigue.
I manage far better than the younger ones doing this very demanding physical work.
My skin is another area that I am happy to say is looking far improved.
I am halfway through my second bottle and just love it.
So thanks so much for bringing us the Nano Soma Richard.

Blessings to you
From CC June 2020

Thank you, Richard, for turning me onto this. I've been using it and it completely cleared my pneumonia this winter, which I believe was the COVID-19 before anyone heard about it. I actually had a lingering sore in my nose all winter and I sprayed this on it and it healed up right away. I can't say enough about Nano Soma...

Blessings to you and your work
Laurie D. Wheeler
Hi Richard

I ordered the NANO SOMA before Christmas, received it, and began using it to heal my diabetes. I have been able to cut back on my insulin doses and my blood sugar has been registering in the normal range for the last two weeks. I am very pleased with these results and am quite hopeful as a result. Blessings, Susan

Later:

Good morning, Richard

I have been consistently using the NANO SOMA spray. My blood sugar is definitely under better control. I still use my medicine but have been able to lower my insulin dose and my blood pressure is lower as well. I rubbed my arm the other day and my skin felt smoother and tauter. I look forward to greater improvement and trust my Drs will be pleased as well. I appreciate greatly your help. I now have my mother on it as well.

Thank you and Blessings, Susan

Morning Richard:

I am also sharing with you that I KNOW it is the Nano Soma that is assisting me right now because I was slammed yesterday with an a.i. virus that wants to stop me. Last year I had quite a dance with these viruses that really knocked me around.... But I know that with the Nano Soma...I have so much more recovery immediately in place from the getgo.
I have tested this up in several ways to know this is Truth.

Heart blessings, Libby

Good morning, Richard,

I have been using Nano Soma for about 3 months and I am feeling quite well for an old bloke - 76 next August.

My knees don't have the pain they used to. I had open-heart surgery 17 months ago, all was well there.

I have convinced my wife Vivienne to start taking Nano Soma. She started on 25th April.

She was diagnosed with Vascular Dementia, early stage. After I googled dementia, printed it out,

and printed the information you sent on Nano Soma, she decided to start taking it. We will see if it slows it down or stops it.

Thank you, Richard, for everything you do, I have followed you for many years.

Love & Light - Bill Sternbeck

Good morning, Richard --

I'm Colleen Steele; I sat on the sofa amid the Bio-geometry(?) folks last night during your presentation. I am writing to express my gratitude for you and your presentation and the products you represent. I came into the presentation last night with my sacroiliac joint in an uproar -- a condition of 7 years -- as I held the lumbar belt, the pain went away! I had also ordered NANO SOMA. I've used it since its arrival Thursday of last week. Every day I have asked my body if it wants/needs any of the supplements I had been taking (via kinesiology).

The answer with just a couple of exceptions has been NO.

I suspect it is ALL and MORE than what it is known to be! I cannot thank you, Bettye, and the Universe enough for being a representative of such great products and coming into my life. I look

forward to following you and including your recommendations in my healing journey. How does it get any better than this?

A few days later: During those 7 seven days, I've also taken NANO SOMA; I've continued to ask my body (using Kinesiology) what supplements it wants from my storehouse of many. With only a couple of exceptions, the body has declined most of the supplements regularly. I believe it is this, the NANO SOMA, that is firming my skin from head to toe -- and I assume many other wonderful things are going on -- but the skin is the visible reflection of health!

Gratefully yours, Colleen

Last year was the most stressful year I have suffered in my life with my health. I'm otherwise a healthy woman in my 60's with no prior health issues other than the occasional cold. In July 2019, I began having symptoms of acid reflux, sinusitis, nausea, severe abdominal & lower back pain, urination frequency, rapid weight loss, and extreme tiredness with no energy to walk or sit. After being prescribed antibiotics at urgent care for the sinus problem, the other symptoms persisted.

In August 2019, I was admitted to the ER for 10 days and diagnosed with a rare autoimmune vasculitis called Granulomatosis with polyangiitis with kidney involvement. The disease caused swelling and irritation of blood vessels in the kidneys, nose, sinuses, throat, and lungs. Chest xrays and lab tests also revealed multiple nodules in the lungs. The standard treatment is 2-10 years of infusions, which began in the hospital with antibiotics, high doses of IV steroids, and the IV chemo infusion of Rituxan. I continued this treatment as an outpatient for the following month.

During my time in the hospital, I was using 25 sprays of NANO SOMA, 3-5 times/day under my tongue, on my discoloured tongue, and into my nostrils. After being released from the hospital, I continued this secret weapon - NANO SOMA, every day. My original tongue colour came back and I gained so much energy, which I desperately needed!

Within one month I had made a full recovery. My doctors consider my case to be "atypical dramatic improvement." In January 2020, I was officially in remission after the chest x-rays showed complete resolution.

After my first dose, I noticed a vast difference in my mental and physical energy, which started to build up! This product proved effective in strengthening my immune system against the adverse side effects of steroids and infusions.

I am happy that my health has done a turnaround with this amazing product. I am still using NANO SOMA consistently, 10-15 sprays 3-4 times daily, without fail. I'm definitely a believer in this great product. And the wonder is that NANO SOMA starts to work on your body almost immediately!

With proper nutrition and NANO SOMA, I regained my healthy weight, feel energetic and active, and can practise my daily routine activities.

From my own experience, I consider NANO SOMA to be an irreplaceable ingredient in my everyday life because it has exhibited positive effects in building my immune system and has given me a whole new life and the ability to stay healthy all year round!

I am grateful to the inventor who has brought this wonderful, effective, natural product NANO SOMA to enable us to experience positive health outcomes and successful results. I will continue to use the spray every day to live a healthy, worry-free life!

Hooray to NANO SOMA! March 2020

Using twice/day for correction of distortions after a retina tear and detachment repair in my right eye, and left eye for fatigue. Vision in both eyes has improved. Slowly the distortions in the right eye are decreasing.

I'm still not able to drive or read with the right eye; however, I'm closer to that ability than in the last 2 years after 2 months of use.

Thanks for the information.

Bill

Dear Richard

I started taking the Nano Soma spray at the end of December. I had a bone graft in my jaw on 6th January. My dental surgeon examined it after three days and thought it seemed more like a week's healing had taken place. There was a little bruising but not a lot. I'm sure Nano Soma helped.

I have just been for a diabetic review and my blood results were all in the normal range for sugar, blood pressure, and all the other things they test for. I had not taken diabetes medication for 6 weeks so I credit Nano Soma for the results. My daughter is taking Nano Soma and my son is also.

Kind regards

Pam MacLennan

This company is so much what we need right now. This spray is in every car and every bedroom because we cannot stand being without it. We use it to keep our immune systems healthy while this crazy pandemic is happening, and I spray it in my nose when I feel allergy/sinus irritation and on

10 November 2023

wounds. My son had a gash on his head and after we irrigated it, I sprayed this on it first and then added the antibiotic ointment. It is crazy easy to use, tastes fairly benign, and is super-duper safe. Even with my son's autoimmune condition. When he had his first flare-up, he wanted to use the spray constantly. Some immune herbs stimulate autoimmune conditions in a bad way, but not this one. I am a user for life.

Andrea May 2020

Hi Richard,

Appreciating the rapid & remarkable recoveries.

As a rule, the dosage remains at one a day unless under the weather - in which case it goes to 5 individual sprays over the day.

This seems to be across the board except for people who are particularly compromised - where they begin at two sprays a day, moving to 5 if in an acute illness. Definitely doing a lot better with my autoimmune as well as acute infection. The lift in mood as the body exists in less struggle is a state I never thought I'd ever enter again. It is most helpful toward keeping my spiritual focus, which of course is essential right now.

Leah

My husband had rashes, eczema on his back for years, especially itchy in the winter. I heard about this product from a trusted friend and bought it for him for Christmas. He was not very willing to use it for a while. After reading the reviews and searching for information online, he started to use it once a day. IT

GOT BETTER! He is no longer feeling so itchy. There is one dark spot about

1inch diameter, which is getting lighter in front of my very eyes. Pink skin grows back from underneath the dark circle. Seeing this change, brings me joy, hope, and gratitude. I would recommend this product to anyone.

Helen

In only two days I got rid of rashes on my forehead. I have experienced rashes with greasy skin for years and now it is all gone. Amazing!! I use the skin spray, also, internally and my body is starting to react positively.

Štef

I developed a rash on my elbows and was given a prescription by my doctor to hopefully clear it up. I diligently applied the prescribed cream for a week and it had no effect whatsoever. I decided to try some of the NANO SOMA that I had on hand and I started seeing results after the first day of applying it. My rash that I had suffered with for almost a month now, was gone within a week of applying it. This product works for so many different skin problems, I will make sure my house is always stocked with some NANO SOMA.

Rachel

This man began to use NANO SOMA to protect himself from COVID-19. Photos are before and after using NANO SOMA

Toe soon after he got started.

Toe after some 3 weeks of use.
